VOL. 45 VICTORIA, B. C. MONDAY, NOVEMBER 11, 1907. No. 134

CUNARD LINE AND CANADIAN TRADE

Negotiations Are on, It Is Reported, for Traffic Arrangements Between Company and Grand Trunk Pacific.

A dispatch from Liverpool to-day says: "Negotiations are on foot between the Cunard line and the Grand Trunk Pacific of Canada for the joint handling of Canadian passengers and freight traffic. The scheme which is still in its initial stage, contemplates running a line of Cunard steamers direct from Liverpool to Canada and a Cunard line service from the Canadian Pacific coast to Japan, China and Australia."

The impression has prevailed that the Grand Trunk Pacific would enter into negotiations with some of the existing ocean steamship companies to supply the Atlantic and Pacific connections. It was generally supposed that the Allan Steamship Company might become partners in this trade. If the Cunard line provides the ocean services for the Grand Trunk Pacific, it will bring to Canadian ports a company which has an enviable reputation and one which with the Lusitania and the Mauretania has been setting a pace on the Atlantic.

The company, if the arrangements are carried out, would probably put on the Pacific some of the steamers now in use on the Atlantic.

BRANDON'S NEW ARMORY.

Rifle Gallery Will Be Added to Structure.

Brandon, Man., Nov. 11.—Further alterations are to be made in the plans for the armory which is being erected on the corner of Eleventh and Victoria avenue. The alteration in question is the adding of a rifle gallery which, it is said, will be built in the latest approved style.

That this building, when completed, will rival any structure of its kind in the city, is the intention of the architect. The front part which will contain a thoroughly up-to-date gymnasium, will have the largest floor space in the city. The new rifle gallery will add an extra expenditure on the building of nearly five thousand dollars, bringing the total estimate expenditure to close on $60,000.

TRAGEDY IN THE MAKING

ENTOMBED MINER FACES CERTAIN DEATH

Immured 800 Feet Below Surface Assistance Cannot Reach Him for a Year.

Mahony City, Pa., Nov. 11.—Alive and unhurt but is darkness, that will never be lifted, Michael McCabe, a miner is awaiting certain death by starvation 800 feet below the surface in the Draper colliery.

McCabe fired a blast that blew away the mine pillar, and fleeing in the wrong direction got into a blind shaft. The breach extends to the surface, where it yawns 60 feet wide, right in front of McCabe's home, where his wife and six children vainly hope for his rescue.

The mine officials say it may be a year before it will be possible to reach where the man is shut up.

DUEL TO THE DEATH.

Dispute Arose Over Election Bet—One Man Killed, Other Fatally Wounded.

Fernando, Ky., Nov. 11.—As the result of a quarrel over an election bet, William Hopkins, son of Rev. Thomas Hopkins, and Frank Foley, fought a duel yesterday. Hopkins was instantly killed and Foley is fatally wounded.

HAVANA RAILWAY STRIKE.

Peace Proposition Suggested By General Manager Orr Is Rejected.

Havana, Nov. 11.—The peace proposition of General Manager Orr for the settlement of the railway strike was rejected at a meeting of the strikers.

SCHOONER LOST WITH CREW OF FOUR

Halcyon Dashed to Pieces Off Brownes Cape--Dead Body Washed Ashore.

Charlottetown, P. E. I., Nov. 11.—Confirmation of the fears expressed last week that the schooner Halcyon had been wrecked and her crew of four men drowned was obtained yesterday when the news reached here that the body of Howard Poole, one of the crew, had been found at Little River together with the fragments of the vessel.

The schooner went to pieces at Browne's Cape. She left Souris on Wednesday night for Georgetown, 22 miles distant, but the storm was too severe for the craft.

THE NEW GRAND.

Mr. Jamieson's Bill For This Week at Government Street House.

What Mr. Jamieson hopes and believes will prove a banner programme opens at the New Grand to-day. It includes the Nelson-Farnum troupe of comedy acrobats, two men and two women; Herbert Brenan and Helen Downing, presenting "One Christmas Eve"; Felix Adler, dialect comedian; Howard and Debeon, acrobats and contortionists; Gloria Dare, singing comedienne; Thos. J. Price, song illustrator, singing "And a Little Child Shall Lead Them"; new moving pictures and the Grand theatre orchestra.

CIRCLING IN THE AIR.

Henri Farman, Champion Aeronaut, Just Fails to Secure New Record.

Paris, Nov. 11.—Henri Farman all but succeeded in his attempt on Saturday for the Grand Archdeacon prize for the aeroplane which shall make a complete circle within the circumference of a kilometre and return to the point of departure.

In a flight of ⅞ of a mile Farman, the aeronaut, travelled more than a kilometre, but descended 150 yards before the cruise was completed. The attempt will be made again next week, when M. Farman is confident he will succeed.

SIX-DAY BICYCLE RACE.

Great Boston Grind in Which Twenty-Four Are Competing.

Boston, Mass., Nov. 11.—A six-day bicycle race, an event which has not been tried here for many years, is arranged to start in the old Providence railroad station, which has been named the Park Square Garden, at 1 o'clock to-day. Twenty-four riders are entered, making up a dozen teams of two men each. The race will be ten hours each day, continuous from 1 to 11 p.m., the finish being on Saturday night. The entries include many riders of national reptuation.

FAVORS ASIATIC EXCLUSION.

Ralph Smith, M. P., Interviewed on His Way to Ottawa.

Vancouver, Nov. 11.—Ralph Smith, M. P., was interview yesterday on his way to Ottawa by the Asiatic exclusionists. Mr. Smith assured them he favored exclusion and pledged himself to support any measure the Dominion government may introduce at the coming session to bring about that result.

He said the enactment of the Natal Act as a federal law would probably meet the required end.

THE AMATEUR STATUS.

Definition to Govern Olympic Games Is Set Forth.

Toronto, Nov. 11.—Secretary Crowe, of the Canadian Amateur Athletic Union, has issued the following:

"The attention of all athletes in Canada, whether members of bodies affiliated with this union or not, is directed to the following definition of amateur set forth in the British Olympic council and governing the qualifications for competition at the Olympic games of 1908 in London: 'An amateur is one who has never competed for a money prize, or monetary consideration, or any declared wager, or any staked bet; who has never engaged, assisted or taught any athletic exercises as a means of pecuniary gain, and who has never taken any part in any competition with anyone who is not an amateur.'"

PEACE IN CENTRAL AMERICA.

Greatest Cordiality Is Now Said to Prevail in Southern Republics.

Mexico City, Nov. 11.—Telegrams have been received by the Mexican government from the Central American republics to the effect that the recent conference held at Amalapa and participated in by Presidents Zelaya, Divalya and Figuero will undoubtedly result in the adoption of plans insuring the peace of Central America.

It was said that the presidents showed the greatest cordiality towards each other, and they are determined to work in harmony for a treaty which is said to have been signed by the three.

PRINCE ALBERT'S BISHOP.

Rome, Nov. 11.—The congregation of the propaganda has decided to raise the vicariate apostolic of Saskatchewan, a district of the Northwest Territories of Canada, to a bishopric and change its name to Prince Albert. Mons. Alberta Paschal will be appointed bishop of the new diocese.

SITUATION SATISFACTORY.

Bankers of Westren States Issue Statement About Financial Situation.

Spokane, Nov. 11.—After a meeting of 161 bankers of Idaho, Eastern Oregon and Western Washington, held to discuss the general financial situation and its special relations to the movement of wheat crops of this region, the following statement was given out:

"We find that the situation among the country bankers is very satisfactory, all of them having large amounts of loans secured by merchandise, wheat and lumber in transit. The country banks seem well supplied with cash resources, and the only difficulty they have had was in converting grain bills into credit with the coast cities."

PROBLEM THAT FACES CANADA

SERIOUS CONGESTIONS ON RAILWAY LINES

Country Is Growing More Rapidly Than Facilities Provided by Transportation.

Ottawa, Nov. 11.—In the report of the railway and canals department for the nine months to April 1st, 1907, M.J. Butler, C. E. deputy minister, says Lord's Day Act, restricting traffic on Sunday, has cut down by an eighth the capacity of the Intercolonial rolling stock to handle business, and by throwing work on the other days of the week, has embarrassed operations.

He says this will require the installation of more motive power and carrying equipment, and as other railways are similarly affected, there may have to be legislation to relieve them.

In regard to the proposed enlargement of the Welland canal and the construction of the Georgian Bay ship-canal, Mr. Butler recommends a commission of three experts to study the economic aspect before either project is undertaken.

The deputy says the great question in the development of any rapidly growing country is transportation. The growth of traffic is so great as to have outsped the means of accommodating it, and despite the best efforts of those concerned, there have been serious congestions. The remedy, he says, may be found in the amplification and improvement of railway equipments, and in the ordinary type being bettered and the quantity of rolling stock increased.

Since the confederation Canada has expended on railways over three hundred and sixteen millions of dollars. The gross earnings of government railways for the nine months of the fiscal year were $6,509,186, working expenses, $6,328,895. National transcontinental railway expenditure during the same period of the fiscal year was $5,537,867, compared with $2,609,627 last year.

BUTLER SHOOTS MILLIONAIRE'S SON

Would-be Murderer Then Commits Suicide--Mystery Invests Country Seat Tragedy

New York, Nov. 11.—The mystery surrounding the tragedy of yesterday morning resulted in the death of John Bjorlin and the possible fatal shooting of Paul G. Thebaud, jr., the 17-year-old son of the millionaire broker, may never be cleared. That Bjorlin, who was a butler and the confidential man in the magnificent country home of Thebaud in White Plains, where the tragedy occurred, shot his employer's son while the latter was sleeping and then killed himself, is apparent. Absolutely nothing as to what led to the act, however, has been learned. The only person who may be able to throw any light on the case is young Thebaud, and it is not certain that he may recover consciousness. The bullet which fractured his skull was removed yesterday, and several famous surgeons have been in almost constant attendance since the operation.

Bjorlin, who was a Dane, had been in the employ of the Thebaud family for about four years, and appeared to be greatly attached to the children in the household. Paul was his special favorite. The affection of the butler for the young man had been long noticeable, and when Bjorlin, several days ago, became morose and began to drink heavily, it was believed to be because the young man called him to account sharply for some inattention to his duties.

Some of the other servants have said since the tragedy that Bjorlin several days ago threatened to kill every one in the house, and told them that he had a written list of his prospective victims, with young Paul at the head. They paid no attention to him at the time, believing it was only the idle talk of a man who had drank too much.

COLLISION ON ELEVATED ROAD.

New York, Nov. 11.—A rear-end collision occurred on the elevated road at Broadway and 34th street to-day. It is reported that a number were seriously hurt, several being cut by falling glass and others were somewhat shaken up.

MIKADO TO HIS HAWAIIAN JAPS

PATRIOTISM IN CASE OF EMERGENCY

Emperor's Birthday Message to 110,000 Yellow Men on American Soil.

New York, Nov. 11.—A special from Honolulu says: "Should the emergency arise offer yourselves courageously to your beloved country, and thus guard and maintain the prosperity of our Imperial throne."

These are the words with which the Emperor of Japan in his birthday message saluted 110,000 subjects in the Hawaiian isles. They have caused no little commotion throughout the islands, and Americans are asking what the Mikado refers to when he speaks of an emergency.

The position of a great body of Japanese in the islands, a population which is increasing, is regarded here as a source of danger in the case of war between the United States and Japan, and the address of the Emperor has not added to the feeling of security.

It is a fact that many who have come during the last two years are veterans of the Russo-Japanese war, and assist in installing a spirit of loyalty among the older members of the Japanese colony. This does much to make the presence of the Japanese here a growing menace.

The reading of the Mikado's proclamation from platforms has been the signal for the greatest display of fireworks in the history of Hawaii, and Americans have never before seen the Japanese show such enthusiasm and excitement.

MAY BE MEMBERS OF "BLACK HAND"

Incriminating Evidence Found on Men Arrested for Forgery at Sault Sainte Marie

SS. Marie, Nov. 11.—The police authorities have arrested two men who are believed to be members of the "Black Hand" organization which has been operating here for two weeks and has sent letters to Capt. Letcher, John McKay, Barrister, and John Dunsmuh, demanding money and containing threats of vengeance if it were not paid.

One of the men was caught red-handed trying to pass a forged cheque. The inability to raise money in this manner is thought to have compelled them to adopt other means.

In the baggage taken with the men were found papers, railway guides, and other evidence showing they had come to Soo, directly from Medicine Hat, from where letters to Soo were mailed.

The strongest evidence against the men and the evidence which the police hope will connect them directly with the crime was the discovery of handwriting in their possession identical with that contained in the "Black Hand" letters. The prisoners were desperate characters, their grips containing revolvers and ammunition, knives, etc.

QUAKE CHANGES ALASKAN ISLAND

Mount McCullogh Entirely Disappears While Neighboring Peak Undergoes Transformation

Washington, Nov. 11.—The remarkable transformation that has occurred in the topography of Bogostov Island, Alaska, as the result of volcanic disturbances, is described in a report received at the treasury department on Saturday from Lieutenant H. B. Camden, commanding the revenue cutter McCulloch.

Regarding the subsidence of McCulloch peak, the report says that the peak has entirely disappeared and that astonishing changes occurred in the profile of the neighboring peak whose outlines "have been softened to a general symmetry by a padding of lava dust, while the sand spot connecting the peak's had attained a height varying from twenty to a hundred feet." An incalculable amount of dust, hundreds of feet in depth had been deposited over the island.

Lieut. Camden says McCulloch peak blew up a few hours before the fall of the lava dust at Unalaska on September 1st last about the origin of which there has been much discussion.

He adds that there is little doubt that the deposit of lava dust which has covered Mount Makush and surrounding mountains belched forth from Bogostov island when the McCulloch peak explosion occurred.

CAMOSUN CASE.

Owners and Builder at Variance About Payment For Construction of Vessel.

Ottawa, Nov. 11.—The Exchequer court has reserved judgment in the case of Bow McLachland & Company vs. Camosun, an appeal from the B. C. admiralty district. The defendants in the action upon the mortgage for the price of the ship had set up their defense claim against plaintiffs for a certain sum, expended by defendants in completing the ship after it had left the plaintiff's building yards and arrived in this country. Local judges determined that the plea was a good defense pro tante to action. From that judgment this appeal is taken.

PROPOSAL TO BUY REGINA BONDS

CAPITALISTS WILL NOT WAIT FOR BY-LAW

City Must Decide Without Putting Matter Before People--Manitoba School Lands.

Regina, Nov. 11.—The city has received word from the English financial interests that the offer for the city bonds will not hold good if the people have to be consulted through a by-law, and that the acceptance of the offer must be made at once. Word has been sent, however, explaining that there is no alternative, but to refer the bonds to the people for a change of the interest rate.

In the event of the English capitalists refusing to wait four weeks for the by-law the city will likely accept the alternative proposal.

Sale of School Lands.

Winnipeg, Nov. 11.—W. M. Ingram, commissioner of school lands, has returned from Rossburn, Man., where he had been holding a sale of school lands. A little over 7,000 acres were disposed of at $69,865, or an average of almost $10 per acre. In two sales held at Russell and Rossburn, over $160,000 was realized from 16,000 acres. Mr. Ingram will leave early this week for the purpose of holding sales at Calgary on November 13th, at Cardston on November 16th and at Fort Saskatchewan on November 20th.

Municipal Owned.

Winnipeg, Nov. 11.—The municipality of St. Vital, west of the city, and St. Boniface to the south, have decided to own its own street cary system.

Home Seekers.

Battleford, Nov. 11.—There were 348 homesteads taken at the Dominion's office here during October.

Fire Protection.

Langham, Sask., Nov. 11.—A by-law to borrow $6,500 for fire protection purposes was passed Saturday by the majority of a two-third vote.

FIFTY WARSHIPS THUNDER WELCOME

Emperor William on Board Hohenzollern Enters Britain's Premier Naval Port

Portsmouth, Nov. 11.—Owing to a chilling and dense fog which made a passage from the Isle of Wight impossible, the German Imperial yacht Hohenzollern, having Emperor William on board, the Empress and other members of the party who are to visit King Edward and Queen Alexandra, was unable to cross on the early tide. The Hohenzollern with the escorting fleet anchored last night of Salza hill for the night, not having been able to enter Sandown bay according to the programme.

The German Emperor's faith in the healing qualities of the climate of the Isle of Wight have received a rude shock, as owing to thick fog, even the precise position of the Imperial yacht was not known until early noon, when it was discovered that she had felt her way through the gloom to the Nab lightship and had anchored there, pending a sufficient lifting of the pall to enable the party to land at Great Britain's premier dockyard. As it was then too late to catch the tide and enter the harbor, the reception party ashore waited patiently until the Hohenzollern entered Portsmouth.

The British Channel fleet, under the command of Admiral Lord Charles Beresford and numbering fifty warships, dressed from stem to stern, saluted the German Emperor as the Hohenzollern passed the narrow waters of Spithead and the land batteries joined in the welcome as the yacht entered the harbor.

JUSTICE DELAYED.

Death of Judge Causes Postponement of Murder Trial.

Washington, Nov. 11.—On account of the death of Justice McOmas, of the court of appeals, in which Mrs. Anne Bradley was to have been put on trial to-day on the charge of murdering Former Senator L. Arthur Brown, of Utah, the case was adjourned when the court convened this morning. It will come up for hearing next Wednesday.

ATTEMPTED MURDER THEN TOOK HIS LIFE

Samuel Tota Attacked Miss Dodd on Street Last Night Seriously Injuring Her--Assailant Committed Suicide.

One day in September, 1904, a young man applied at the Province cigar factory for work. His application was so well supported by testimonials as to his ability that he was engaged there and then, and he quickly proved himself one of the most expert hands in the shop. Some weeks his earnings would run to $30 and even higher, and his average was not far from this figure. Among his companions in the factory he was not disliked, though somewhat morose and uncommunicative in disposition. The name of this young man was Samuel Tota. His figure was somewhat short and squat, his complexion was dark, and he possessed a generous crop of dark, curly hair.

These details may be noted to-day for Tota lies, cold in death, in this city, with the taint of attempted murder on his soul,—a suicide. And the girl of his unhappy love, scarred for life by his impassioned hand, is an object of solicitude to the doctors and nurses of St. Joseph's hospital.

From the information obtainable of this one of love's tragedies, the story may be followed somewhat in this way:

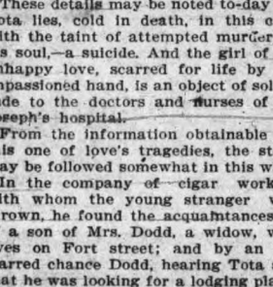

In the company of cigar workers with whom the young stranger was thrown, he found the acquaintanceship of a son of Mrs. Dodd, a widow, who lives on Fort street; and by an ill-starred chance Dodd, hearing Tota say that he was looking for a lodging place, invited him to seek a room which was vacant at his mother's house, which Tota did.

In this way the young man was introduced to the Dodd family, and an acquaintance grew between him and Miss Lottie Dodd, the widow's only daughter which on Tota's side was unwisely permitted to ripen into love. As a member of the household he was able to avail himself of frequent opportunities of enjoying the company of the girl, and eventually his attachment developed into uncontrollable desire.

This unhappy attachment was not returned. Lottie, whilst possessing a woman's natural love of attention, found no responsive chord of her heart awakened by the addresses of the young man and as she discovered the nature of Tota's regard, hastened to disabuse his mind of any hope in that direction. She chided his advances and cautioned him against entertaining hopes of winning her hand.

It was not on the occasion of Tota's first appearance in Victoria that this unhappy acquaintance was made. Commencing with September, 1904, he worked in the cigar factory for six or eight months, and then left for San Francisco, where he remained until May, 1906, when he returned to the city and found employment again with the cigar people. It was then he became known to young Dodd, and received his introduction to Mrs. Dodd's home.

Some time last fall Tota once more left Victoria. For several months he prosecuted his trade in Seattle and other places on the Sound. A few months ago he moved to New Westminster and found employment there. During his absence the young man

SAMUEL TOTA
Attempted Murderer and Suicide.

continued to occasionally press his suit with Lottie Dodd, and was consistently discouraged in his attentions. And then came insanity and the fury of unrequieted love.

With madness in his brain and frenzy in his heart Tota sought the city on Sunday night, coming over on the boat which arrived about 7 o'clock. Before leaving New Westminster he had placed a revolver and a razor in his pockets, showing that his derangement had already extended to the idea of bloodshed.

With the stealth and cunning of insanity, the young man sought the path, which he knew would be traversed by Miss Dodd in her accustomed passage from St. Joseph's hospital, where she was employed as a nurse, to the Roman Catholic Cathedral, on Blanchard street. The young lady was a little late in preparing for church on Sunday evening, and therefore missed the company of any of the other girls, some of whom would otherwise have been in her company. She started from the hospital alone about 7.30 o'clock.

Between Victoria Crescent and Collinson street, there is a vacant strip of land, which extends in a triangular form at the junction of these thoroughfares. This land is unfenced. It is covered in one or two spots with stunted bushes, and is used by stone-cutters preparing stone for building operations near by.

At night this locality is dark. And on this vacant land particularly the shadows are deep enough to conceal any distinguishable exposure of the human form. It was curstomary for the hospital girls to cross this dark territory to reach Church Hill, and Blanchard street, and so on to the cathedral. It was here that Tota stationed himself. There was no human eye to witness the tragedy which was enacted there.

The boarding house known as Rockabella, is located in close proximity to and Collinson street and Victoria Crescent junction. Its grounds front on Church Hill, and there is an entrance from Victoria Crescent also, nearly opposite the vacant point of intersection referred to. C. Pemberton, one of the guests, was startled, about eight o'clock, by a revolver shot, and then following quickly another, coming apparently from the street. He rushed out through the grounds, and was turning up Victoria Crescent in the direction of the shots, when he partially collided with a woman who was running down the street. The darkness was such that her form was only roughly distinguishable. But as she brushed against Mr. Pemberton, evidently laboring under terrible distress, she panted, "That man. He tried to kill me." It was not until sometime af-

(Continued on page 12).

BADLY BEATEN BY HIGHWAYMEN

FARMER WAYLAID IN DEAD OF NIGHT

Escaping From Assailants Seeks Refuge in Farmhouse--Suffocation Tragedy at Kingston

Montreal, Nov. 11.—Beaten and bruised, with blood flowing from a cut in his head as a result of an encounter with three highwaymen, Jos. Paquin, a farmer of Riviere Des Prairies, sought shelter at a farm house in the Cote Visitation, a few miles north of Montreal on Saturday midnight. He had been held up and robbed on the Cote Visitation road while driving from Montreal to Riviere Des Prairies.

While he only lost $6 he received a bad beating from the men who attacked him, but would have fared much worse for trying to protect himself had he not escaped in the darkness. The matter has been placed in the hands of the Montreal detectives.

Killed By Engine.

Toronto, Nov. 11.—A middle-aged man, believed to be Wm. J. McGuire, of Richards Landing, in the Georgian Bay district, was struck and killed by an engine near the York yards yesterday. It is believed he was a sailor and was travelling from Prescott to Scarboro. A receipt book issued by the Oddfellows at Richards Landing to W. J. McGuire, was found in his pocket.

Suffocated.

Kingston, Ont., Nov. 11.—Owen Connell, of Sudbury, fell down a cellar way in the Windsor hotel and was found later suffocated. His neck was twisted in the fall and this circumstance closed his respiratory organs. Deceased was 36 years old.

Stimulant Kills.

Toronto, Nov. 11.—Samuel Erz, a German, 40 years old, living on First avenue, is dead from heart failure. He was suffering from a severe cold and took a stimulant to drive it out, but the stimulant proved too strong.

GIANT COPPER SYNDICATE FORMED

Consumers in Europe Unite in Ordering Shipment of Metal Worth $150,000,000.

New York, Nov. 11.—The World says a syndicate, in which the largest copper consumers of Europe are represented, was recently formed in London, and has purchased 50,000 tons of copper. The price paid is slightly above the prevailing prices in the market. The copper is to be delivered in November and December.

The amount involved is approximately $150,000,000, and is to be paid in London on delivery.

CIVIL SERVANTS TO UNITE

ASSOCIATION WILL COVER ENTIRE WEST

Report of Committee Which Waited on Commision at Ottawa Is Presented.

Winnipeg, Man., Nov. 11.—The report of the committee of the civil service association of western Canada who recently waited upon the commission at Ottawa was presented last week at a meeting of the Western Civil Service Association at which were present about two hundred and fifty civil servants. The committee who interviewed the commission at Ottawa consisted of Dr. Barrett, J. Obed Smith, J. J. McKenna and Col. Stett.

Consideration was also made with respect to including all the territory between the Great lakes and the Pacific coast in the Western Canada Association, and action was taken in drafting by-laws with this in view.

This would include about 3,500 civil servants in the west. All the different provinces will be represented on the executive, and in addition steps will be taken to form provincial associations, with the headquarters of the federal executive in Winnipeg. The following is the report.

"The civil service commission not having been able to entertain the request of the executive to visit Winnipeg and offering to receive representations through delegates, the undersigned were appointed to appear before the commission and present the claims of the public officials of the west for increased remuneration and the other claims set forth in the memorial filed with the commission by the executive.

"The commission fixed Wednesday the 26th ulto. as the day for having your representatives. Certain of the undersigned were, on account of official engagements, unable to attend at that time. The president, however, at once proceeded to Ottawa, appeared before the commission, and secured an adjournment to Wednesday, the 23rd on which day your delegates were all in attendance. They were received most courteously and given every opportunity to elaborate the case set forth in the memorial and to express their views upon the organization of the service generally. The commission devoted the whole day to hearing and questioning the delegation. A full report was made of the evidence, and it will doubtless appear with the report of the commission, when every member of the association will have an opportunity of reading it.

"The undersigned do not consider that it would be proper for them to express any conclusions which they may have drawn from the conference, as to the probable nature and scope of the findings of the commission. But they do feel warranted in stating their conviction that the interest of the service, both inside and outside, will be safeguarded by the commissioners, who evinced a detailed knowledge of departmental organization and a sympathetic regard for the condition of the public employees in the west.

"The meeting of the undersigned with the commission, convinced them that the association acted wisely in providing for the sending of delegates to Ottawa when it was found impossible for the commission to visit the west.

"The undersigned may add that the commission met all the expenses of the delegation."

QUEBEC'S SURPLUS REVENUE.

Montreal, Nov. 11.—The surplus in the provincial revenue over the expenditure for the four months ending October reaches the sum of $248,571, and Hon. Mr. Weir, provincial treasurer, expects the surplus for the fiscal year to be greatly in excess of the half million which was secured a year ago.

HOTEL GUTTED AT NICOLA

TWO GUESTS INJURED WHILE ESCAPING

Furniture, Fixings and Stock a Total Loss in Hilliars House Fire.

Nicola, B. C., Nov. 11.—Fire broke out at 7:15 this morning at Hilliars house. The fire was caused by a stove pipe in the dining room igniting the room above. It had obtained a firm hold before it was noticed. It was impossible to save anything in the dry frame building. Ten minutes after the start it was all ablaze.

An addition which was being built was also destroyed. All the guests escaped safely except J. M. Turner, of the Bank of Montreal's staff, who was severely burnt about the shoulders and hands in attempting to get out of the building, also A. B. Lawson, who when sliding off the veranda injuring his feet.

The damage done was considerable. Furniture, fixings and stock were a total loss. The house was only opened recently as a hotel by George Hilliars. It was owned by Wm. Riley and partially covered by insurance.

MILITARY TRAINING IN PUBLIC SCHOOLS

Arrangements Between Minister of Militia and Government of Nova Scotia.

(Special to the Times.)

Ottawa, Nov. 11.—An arrangement has been made between the minister of militia and the government of Nova Scotia for the introduction into the public schools of that province of a system of physical exercises and military training which will go into effect on the first of January next. School teachers will undergo a special course to qualify them for imparting physical training and military drill to scholars. Certificates will not be granted the teachers in Nova Scotia until they qualify for this purpose. Rifle shooting will be introduced for male students. Certificates for physical training and military drill will be issued to teachers of either sex.

For school cadet corps the military deparement will provide instruction belts and caps, a proportion of arms and ammunition, and drill barns.

Sir F. Borden is a strong believer that every lad before he reaches manhood, should be able to handle the rifle. The minister is in communication with other provinces, and it is believed they will follow the example of Nova Scotia.

EATS PEANUTS AND DIES.

Man First Becomes Insane and Then Succumbs to Simple Diet.

Fremont, Nov. 11.—Because scientists have reported that peanuts contained all the elements necessary to sustain life, Archie Venuto, a Fremont man, attempted to live by eating nothing but peanuts with the result that he died of exhaustion to-day after a week's good diet. At the end of four days Venuto became insane and was placed in a hospital. He had absolutely refused to eat anything but peanuts thereafter, and drink nothing but water.

There are no grapes to equal those produced at Hoezidert, in Belgium. They are grown under glass, and the vineries are one of the sights of the place.

LOCAL COUNCIL OF WOMEN MEET

CONVENTION OPENED IN CITY HALL TO-DAY

Reports Presented From Various Affiliated Societies--Other Business Transacted.

Sixty delegates of representative societies of Victoria met this morning in the thirteenth annual gathering of the Local Council of Women to discuss themes which have a special bearing on the life of women in the community. The success of their convention is assured by the very fact that here, right at the beginning, during the routine work of the council, so many should come. Mrs. R. S. Day presided, and with her on the platform were Mrs. Jenkins, recording secretary; Mrs. Spofford, corresponding secretary, and Mrs. Hassell, press secretary, and Mrs. Grant, treasurer.

Five new societies applied for admission to the council—the Y. M. C. A., the King's Daughters of Metchosin, the Victoria Literary Society, the Central Baptist Church Missionary Circle and the ladies' department of the S. P. C. A. The following individual members were also given standing: Miss Crease, Mrs. Owen, Mrs. Raedacker, Mrs. Powell and Mrs. Hardaker.

Reports were heard from the affiliated societies, showing excellent progress. Among those reporting were: King's Daughters of Metchosin, by Mrs. A. T. Watt; the Home Nursing Society, by Mrs. Barnard; Y. M. C. A. Auxiliary, by Mrs. Andrews; Friendly Help Society, by Miss Mary Lawson; Hives of the Ladies of Maccabees; Ladies' Guild of the Metropolitan Methodist church, by Miss Sheldon; Missionary Society of the Emmanuel Baptist church, by Miss Pickard; Spring Ridge Mothers' Club, by Mrs. Sherwood; Daughters of St. George, by Mrs. Savory; ladies' committee of the Tourist and Development Association, by Mrs. Cameron; the Ladies' Auxiliary of the Jubilee hospital, by Mrs. Hasell.

The announcement was made that Mrs. Dunsmuir had offered the Women's Auxiliary and Daughters of Pity the ues of Government House for a large dress Cinderella in aid of the hospital.

Mrs. Mackin, a visitor from the W. C. T. U. of Vancouver, said that she was glad to be at the meeting and to hear the fine reports. "I shall go home," said she, "and tell the Vancouver women that they are not doing half as much as they might. I shall go home enthused and inspired."

Mrs. McTavish, representing the Women's Institute of Ontario, spoke of the work that was being done by that society. It was formed for the dissemination of knowledge relating to the home, especially in regard to sanitation and children. In company with a cousin of R. L. Drury, of this city, she had toured the country in Ontario addressing meetings of the branches of the society. She thought those interested in the meetings were the best housekeepers and mothers.

The election of officers resulted as follows: President, Mrs. R. S. Day; 1st vice-president, Mrs. Burns; 2nd vice-president, Miss Lawson; 3rd vice-president, Mrs. Williscroft; 4th vice-president, Miss Crease; 5th vice-president, Mrs. Justin Gilbert; treasurer, Mrs. W. Grant; recording secretary, Mrs. Jenkins; corresponding secretary, Mrs. Spofford.

The appointment of Mrs. Hasell as press secretary was confirmed.

OAKLAND BANK CLOSES ITS DOORS

(Special to the Times).

San Francisco, Nov. 11.—The Union National bank, the oldest bank in Oakland, closed to-day. No statement of the assets or liabilities were available up to 12:20 o'clock.

Funeral will take place in Vancouver, B. C., on Wednesday, Nov. 13th, at 2 p.m.

Granite and Marble Works
Monuments, Tablets, Granite Copings, etc., at lowest prices consistent with first-class stock and workmanship.
A. STEWART,
COR. YATES AND BLANCHARD STREETS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Detention Building, Victoria, B. C.," will be received at this office until Monday, December 2nd, 1907, inclusively, for the construction of a Detention Building at Victoria, B. C.

Plans and specification can be seen and forms of tender obtained at this Department and on application to William Henderson, Esq., Resident Architect, Victoria, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, November 2nd, 1907.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

DISASPOINTED IN HAGUE'S WORK

CONFERENCE A PLANT OF SLOW GROWTH

British Premier Delivers Interesting Speech at Lord Mayor's Banquet in London.

London, Nov. 9.—The celebration of the sixty-sixth anniversary of King Edward's birthday was brought to a fitting close at the inaugural banquet of the new Lord Mayor of London, Sir John C. Bell, at the Guildhall to-night. For the first time since the brief regime of Lord Rosebery in the early nineties, a Liberal prime minister occupied the post of honor. The premier, Sir Henry Campbell-Bannerman, who last year was unable to attend the Lord Mayor's banquet, owing to the death of his wife, was in his place to-night, and delivered the principal speech of the evening, in reply to the toast of His Majesty's ministers. Departing from the usual rule, the premier referred in his opening remarks to domestic affairs, especially congratulating David Lloyd-George, president of the board of trade, on the settlement of the dispute between the railways and their employees.

Touching on foreign affairs, Sir Henry said that the results obtained at the recent Hague peace conference had not come up to his most sanguine hopes, but that he was glad he had been over-sanguine in his expectations, for he spoke for a nation who had no aggressive designs upon its neighbors, and desired only to live in peace and amity toward all. The Hague conference, he declared, was a plant of slow growth, but one in which he had great confidence, and he believed the day would come when there would be a stop to the mad race for arms, which was now the scourge of our common civilization. In view of the work accomplished by the conference, Sir Henry said that it had been by no means insignificant. The British delegates had done all that could be done to advance the question of arbitration. If they had attempted to force the issue he declared, the result would have been negative or even worse—friction. An international prize court would be a notable step in advance, he said, and it might be necessary for the leading maritime powers to come to an agreement for the establishment of such a court and the adoption of rules therefrom. Great Britain had also left matters in shape for future amicable discussion of the abolition of contraband and the restriction of floating mines.

The colonial conference, The Anglo-Russian treaty and the steps taken to prevent the plague and sedition in India having been disposed of, Sir Henry took up the Congo question. Great as the contrast is between the hopes of the English people when the Congo state was established and the conditions existing there at the present time, he felt that he must speak with the greatest reserve, because the Belgian parliament will shortly be asked on what terms it will take over the independent Free State of Congo. Great Britain would not interfere in the negotiations, he declared, but the government was deeply impressed with the responsibility that it, in common with others, felt that the government of the Congo had been put on a footing with the colonies administered by the other nations, and in accordance with the treaties with which the Congo came into existence.

LESSONS FROM OLD LAND.

Theme Chosen By Guest of Canadian Club at Portage la Prairie.

Portage la Prairie, Man., Nov. 9.—The guest of honor at the Canadian Club here last night was Principal Patrick, of Manitoba College, Winnipeg. "Lessons" to be gleaned from the Old Country was his subject. Canada might do well to emulate the high political aims, and the thoroughness in all branches of commerce that characterized the old land.

In concluding, he issued three warnings—call upon the people to provide for the public health, to pay much attention to education and to resist the liquor evil. In discussing the matter of education, he spoke strongly in favor of making it compulsory.

LETHBRIDGE FIELD BATTERY.

Will Consist of 2 Guns and 160 Officers and Men.

Lethbridge, Nov. 9.—Lethbridge is to have a field battery, consisting of six guns, one hundred and six officers and men, and sixty-five horses.

Such was the conclusion arrived at at a meeting last night. The organization has the official sanction of Col. Steel, the officer commanding this military district. Dr. J. S. Stewart will be the officer in command. He has already served with the Strathcona Horse, and will take a course at the Royal Military College before assuming command.

Buttons appear to have first come into use in Great Britain in the reign of Edward I. The first were made of wood.

PLOTTING AGAINST LIFE OF CZAR

Outlaws Discovered Cutting Semaphore Signal on Line to Trarskoe-Selo.

St. Petersburg, Nov. 11.—What is believed to have been a carefully conceived plot to take the life of Emperor Nicholas while he was en route from Peterhof to his winter palace at Tsarskoe-Selo on Saturday, was frustrated by the vigilance of the guards.

Early on Saturday morning a guard discovered six men trying to cut the wire of a semaphore signal at Ligovo station, at the junction of the railroads to Peterhof and Tsarskoe-Selo. The guard attempted to arrest the men, but was fired upon and wounded. The shots, however, aroused the officers and guards at the station, and several volleys were exchanged between the outlaws and the soldiers, the former escaping without injury.

The police profess to be unable to understand the attempt to cut the semaphore, as such an act could hardly work any harm to the imperial train, which was due to pass a few hours later. It is generally believed, however, that the outlaws intended to prevent the use of the signal with the object of bringing the train to a stop at that point. No arrests have been made.

KILLED BY TRAIN.

Parry Sound, Ont., Nov. 9.—Robert Menzie, a young Scotchman, who worked in a gravel pit near here, was killed by a train while walking on the track.

It is computed that the dew falling in Great Britain is equal to five inches of rain each year.

TALKS OF RECORD BREAKING FLEET

FIRST SEA LORD ON INSTANT READINESS

In General Capacity the Empire's Navy Was Never so Satisfactory.

London, Nov. 9.—Sir John Fisher, senior naval lord of the admiralty, at the Lord Mayor's banquet to-night, in replying to the recent attacks upon the navy, pointed out that in the North Sea manoeuvres there were gathered together twenty-six of the finest battleships in the world and twenty-six cruisers, many of which were superior to any foreign battleships, and even this great fleet represented only a fraction of Great Britain's naval power. Besides, he said, the gunnery and general efficiency of the British fleet surpassed all records, and was a matter for wonder and admiration.

"The object of the admiralty," said Sir John, "has been one of instant readiness, and we got it. Don't be disturbed by the bogie of invasion. One might as well talk of embarking St. Paul's cathedral on a penny steamer as embarking one hundred thousand German soldiers to invade England." In conclusion, Sir John said that the fleet, in the number of fighting ships and in general capacity, was never so satisfactory as at the present time.

INDUSTRIAL PEACE.

Committee of American Organization Outlines Plan of Future Campaigns.

Washington, Nov. 9.—The trustees and the committee of the Industrial Peace Foundation met at the department of commerce and labor to-day to organize and outline plans.

A resolution was adopted requesting the commissioner of labor to investigate and report upon the workings of the various state boards of arbitration and conciliation, to report upon the Canadian Act and upon the industrial arbitration and conciliation boards in other countries, and to present the result to the founders for guidance and information, with the view of bringing the arbitration and conciliation boards of the several states which have provided for such work in connection with the foundation.

A committee on by-laws and regulations was appointed, consisting of Marcus M. Marks, Archbishop Ireland, Samuel Gompers and Commissioner Neill. It was found that the organization act required some amendments, so that the trustees originally named by the president and the committee of nine named by those trustees could act as one body when required.

Commissioner Neill made a report on the workings of the Erdman Act, in connection with the scope and object of the foundation.

During the meeting the hope was expressed that the funds, now consisting of the Nobel peace prize, awarded to President Roosevelt and devoted by him to the foundation, would be largely increased by contributions, so that an income would ultimately be at the disposal of the trustees to enable the foundation to effectively do the work set forth in the Act of Congress incorporating the foundation. Great hope was also expressed by various members of the board of trustees and of the industrial peace committee that the foundation would develop into the most efficient body in any country in the world for the promotion of industrial peace.

PRECOCITY OF CRIME.

Infants Neglected by Their Mother Carry Out Wholesale Thefts.

Winnipeg, Nov. 9.—Baby thieves, with their bright eyes and pink faces, were the sensation in police court circles to-day. Ralph, Emil and Tiny Minch, three children, 6, 8 and 10 years of age, were charged with stealing. It was thought when the case was called that it would turn out to be the usual trouble when small children are charged with theft. The evidence given by the small prisoners, however, showed that this was the worst case of its kind to come up in the police court for many years.

Standing in the prisoners' dock, the little ones, scarcely tall enough to see over the rail, pleaded guilty to the charges read to them. Ralph, the oldest boy, stated that he and his brother and sister had stolen many articles. Detective Green, who was working on the case, exhibited in court a gold watch, knife, bunch of keys, gold locket, purse containing three dollars, and several other articles.

The prisoners stated that they had been in the habit of going to houses and picking up anything that they thought would be valuable. The six-year-old tot was always left outside with a whistle, which he was instructed to blow if he saw an officer approaching.

The father of the children was in court. He said that his wife was neglecting her children. She had joined the Seventh Day Adventists, and was devoting all her time to reading the doctrines of that church. The magistrate said the Adventists should be brought to court for putting such silly notions into the woman's head.

The case was remanded for a week. The oldest boy will be sent to the children's aid home, where he will be kept for a time at least.

DRAGGED TO DEATH.

Moosomin, Sask., Nov. 9.—A fatal runaway accident occurred on the farm of Mr. Rothney Lesette, twelve miles south of here, yesterday, in which John Wilkes lost his life. He was ploughing with a four-horse team when they ran away. He became caught in the lines and was dragged to death.

STEADY SHIPMENTS FROM B. C. MINES

Outlook Is Favorable for Production During a Lengthy Period.

Rossland, Nov. 9.—The outlook at the several mines of the camp is favorable for steady and continuous production for a long period.

At the Centre Star and allied mines, the production is large, running from 3,500 to 4,000 tons per week. The Centre Star, War Eagle and Iron Mask are looking particularly well. The Centre Star is developing in a favorable mannerner, and is an important addition to the general stock of ore in sight. The shaft on the Idaho, one of the subsidiary mines of the Consolidated Company, has reached a depth of 225 feet, and is still in ore.

The management of the Le Roi reports that work with the diamond drill on the Spitzee mine, which the Le Roi is operating under bond, has been temporarily suspended, but will be resumed later.

The following are the shipments for the week: Centre Star, 3,635; Le Roi, 2,135; Le Roi Two, 595; total for week, 6,365; and for year to date, 233,649 tons.

Southeastern B. C. Mines.

Nelson, Nov. 9.—The following are the ore shipments and smelter receipts in southeastern British Columbia districts for the past week and the year to date:

Name.	Week.	Year.
Boundary	32,233	1,112,000
Rossland	5,775	236,773
E. of Columbia river	4,130	138,570
Totals	42,169	1,487,433

Smelter Receipts.

Name.	Week.	Year.
Grand Forks	23,010	613,157
Greenwood	6,097	296,245
Boundary Falls	...	153,394
Trail	8,365	221,941

Marysville	600	27,000
Totals	42,113	1,487,343

ELECTRIC SMASH.

Accident in Rhode Island Causes Death of One—Thirty Injured.

Woonsocket, R. I., Nov. 9.—One unknown foreigner was killed and about 30 others more or less seriously injured in a collision of electric cars on the Slatersville road near here to-day.

A heavily loaded work car became unmanageable, and slid down a steep hill, crashing into a passenger car that was on the track.

SUING STREET RAILWAY.

Winnipeg, Nov. 9.—The board of control has decided to issue a writ against the street railway company for $9,000, being the total fines imposed because it did not provide the requisite number of cars for service.

AN IMPORTANT PROJECT.

The announcement that the Cunard Steamship Company, the oldest, the most successful and one of the most powerful companies in the world, and the Grand Trunk Railway Company, the oldest rail line in Canada, are going to co-operate in business, is very interesting news to Canadians. The Cunard Company was the first to place a steam vessel upon the Atlantic route, and that vessel was originally operated between Canada and Great Britain. The fact that the management of such a concern, after so many years of experience and meeting with such success on the southern route, should turn its eyes northward again suggests momentous possibilities. Does it not portend that the advantages of the short run across the Atlantic are at last apparent? It suggests more than that: it is premonitory of a revolution in transportation between Great Britain, Canada, the Orient and the Antipodes. If steamers of the class of the Lucania were placed on the run between Liverpool and Canadian ports they could easily clip, not an hour or two, but a day at the very least, off the time of passage occupied by the Lusitania, although she is at present one of the wonders of the world. A complementary steamship system established on the Pacific, it is not difficult to estimate what the outcome would be. The people of the present day are always pressed for time. The world is moving faster every year. The transportation system which can save time is the one which will draw patronage and business. In more senses than are dreamt of the twentieth century will be Canada's century.

MR. KING AND THE VANCOUVER EXCESSES.

The patriotism of the Japanese is as famous as that of the heroes of ancient Rome, commemorated in ringing verse by Macaulay. Japs of all classes and conditions were more than willing to sacrifice life and property in the recent war with Russia for the honor of the nation. In their eagerness to get to the front and to throw themselves at the face of the enemy they could scarcely be restrained. But the Japs in Canada seem to be imbued with an entirely different spirit. That is to say, they do not appear to have brought across the water with them that altruistic idea of service which was so conspicuous at home in their relations with governments. Perhaps the change in attitude of mind is due to change of circumstances. Possibly they have imbibed all to speedily the Occidental view point in such manners, which is that governments are institutions of service rather than institutions to be served. In no other way can the magnitude of the bills be presented to Mr. Mackenzie King on account of losses sustained in the so-called Vancouver riots be accounted for. The attitude of the Oriental mind in its new surroundings was frankly and naively summed up in the declaration that governments are expected to "pay through the nose," as it were, for damages inflicted upon the property of strangers within the gates of a nation. Mr. King endeavored to make the fact plain that while the government is desirous of meeting every legitimate claim against it, it will not tolerate fraudulent demands. The consequence has been a "taxing process" which has lessened the damage claims to a considerable extent.

The losses sustained by the Orientals in Vancouver having been fixed in a manner satisfactory to all concerned, Mr. King is going to undertake another and what will probably prove a more interesting and illuminating investigation. He has been empowered by the government to endeavor to find out the cause of the recent remarkable descent upon this coast and a host of undesirable and unappreciated immigrants. The Vancouver News-Advertiser, which has maintained a very fair and judicial attitude throughout the course of the agitation, says of Mr. King, the Deputy Commissioner of Labor and his mission: "The information that will be elicited will probably be useful to both the Dominion and Imperial governments and not unlikely will facilitate an undestanding between Great Britain and Japan in regard to a question of considerable international importance. We believe we are only giving expression to the opinion formed by everyone who has followed the proceedings from day to day of the inquiry now concluded, when we say that the manner in which the Commissioner has conducted the investigation has received general approval. The duty he had to perform was not without difficulties in more than one direction and he has steered a course which, while avoiding them, has been fair to all parties concerned and has rendered substantial service to the Dominion government in adjusting matters which in less competent hands might have resulted in further complications and caused dissatisfaction at Tokio with the treatment accorded the sufferers by the riots in particular and Japanese residents here in general."

TRADE RELATIONS WITH BRITAIN.

The press of the United Kingdom has not received Australia's preference proposals very seriously. It has stated its opinions of them very frankly indeed, in some instances with an acidity that is not likely to leave a very pleasant taste in the mouths of Premier Deakin and his ministers. And yet there is nothing more certain than the fact that Mr. Deakin believes he is doing the Mother Country as well as his own country a signal service in adopting a frankly protectionist policy, with an incidental gap in the tariff wall for the benefit of British manufacturers and commercial houses. According to Punch's chief cartoonist, the gap in the fence is a very small one, and John Bull will have to prove a very agile old gentleman to clear the barrier cleanly and neatly. But the Premier of the Commonwealth has explained that the action of his government must be judged from its intentions rather than by present appearances. It is the ultimate effects which must be considered in estimating the possibilities of his policy. He says it is clear that reciprocity is not possible while public opinion in Great Britain remains as it is. His idea apparently is that it would be well for Australia to attempt to effect a change in British public opinion. This is an undertaking of considerable magnitude. It is something Canada has not attempted to do, the position of our Prime Minister being that the fiscal system of Great Britain is something with which we have nothing whatever to do. All we have to consider is the maintenance of a policy we consider to be in the best interests of the Dominion. We have adopted a system of preferences because such a system is certain to be of benefit to Canadians. Experience has demonstrated that the attitude of our government is sound. The Premier of Australia evidently thinks the policy of the Commonwealth should be cast upon very different lines—that it should have reference to the business situation in Great Britain as well as to the conditions in Australia. He frankly says it was a misfortune that at the recent Imperial Conference there was not only no chance for a British tariff preference, but that a proposal for Empire co-operation had been cavalierly set aside and only a colorless substitute offered. At the same time he evidently cannot understand why it is that an Empire possessing greater possibilities of self-sufficiency than any other nation in the world should deliberately set its face against his desire to effect the most powerful trade combination the world has ever beheld. The Premier says he believes the preference will come, and it may be assumed that the Australian system of preferences, accompanied by an Antipodean idea of the duty of the Mother Country, will be the most effective means of bringing it about.

With Mr. Deakin's idea that the extension of the Canadian intermediate tariff to France and its possible extension to Germany and Italy also is the outcome of the failure of the Mother Country to reciprocate with Canada we cannot agree. A treaty has been arranged between this country and France because it is the belief of our Finance Minister and other statesmen that a broadening of the lines of commerce will be beneficial alike to Canada and to France. Trade is mutually beneficial or it could not be carried on. The policy of the present government is to remove all barriers standing in the way of commerce consistent with the conditions as they obtain here. The fruits of that policy are so manifest in the business conditions in the country that no defence of it is necessary. If Australia has any other end in view in adopting a protectionist system, modified by a preference some British newspapers contend is merely a preference on paper, we fear her statesmen will find out they have made a serious mistake.

The attention of our readers, and especially of readers musically inclined, is called to the letter published in another column from the management of the series of high class concerts to be given this season under the auspices of the Victoria Musical Society. A rumor has been put in circulation that some of the artists engaged will not appear here. We can vouch for the fact that they are all under a binding contract and must give recitals in Victoria. The association has assumed a heavy responsibility in undertaking to bring these stars in the musical firmanent to Victoria, and it is depressing to think that anyone should give currency to such a foundationless rumor.

* * *

While expressing our sympathy with the Esquimalt Water Work Company on account of this very unpropitious weather, we cannot overlook the fact that if these conditions be maintained for any length of time we shall have our own troubles next summer. Elk Lake is not filling very fast.

* * *

For the information of people who are going about the streets asking if it is not an extraordinary thing to have September weather in the middle of November, we may state that old-timers say this is exactly the kind of winters they used to have in the days of long ago.

* * *

The provincial treasurer of Quebec expect a surplus half a million dollars in excess of the surplus of last year, which was a very handsome one. The eastern provinces all seem to be sharing in the prosperity which has come through the West.

What Other People Think

CODLIN'S YOUR FRIEND, NOT SHORT

To the Editor:—It is really amusing to watch the antics of the politicians over the Asiatic exclusion question. Knowing that the public, or rather the laboring section of the public, is excited over it, each one is trying to secure the confidence or win the attention of the electorate by his attitude towards it.

Here comes the Socialist. Loudly protesting, strongly urging, righteously indignant. He flings language and maledictions on all parties concerned. He knows full well that he will never be in power to carry out his wild promises. So he scatters his useless pledges with profusion. If he is intelligent, he is quite certain that had he, or his party, the reins of government in the province or in the Dominion, that he would flatly turn down the demands he himself formulated when an irresponsible agitator. He will bang the table, gesticulate wildly and denounce the capitalistic thieves, but, if he ran the government, would soberly carry out a programme altogether different from his platform declarations. The Asiatic Exclusion League would know him no more for ever.

Here comes the Conservative. He is in active and undisguised alliance with the big employers of labor, the C. P. R., cannery and lumber men, who want cheap labor. He is cute enough to know that the strong antipathy of the labor classes to the Asiatics must be appeased somehow and so he produces an abortion nicknamed the Bowser Act. He knows the act will be disallowed for Imperial reasons, so he chuckles grimly and lets things slide. He knows that even if allowed it will be useless for exclusion purposes towards the Japanese. These clever people are now teaching English in their schools, and there will soon be hundreds of thousands who could pass an examination under the act. So the Conservative politician winks to the employer on the one side and tells him that the Bowser bill will not hurt him for these two reasons, and poses to the labor men on the other side as the promoter of anti-Asiatic legislation.

Here comes the Liberal. He wants the votes, and having done something tangible on the question will likely get them. He points to the fact that his party raised the Chinese tax to $100, then to $500, and so stopped the influx of the almond-eyed Celestial.

The Liberal also shows how that his party did agree with the Mikado to limit the immigration of the Japs to 500 or less per annum, which agreement the astute Jap managed to evade. The argument of the Liberal is this: The Conservative did nothing, we did something, and you know it. There now.

For myself, I look on with a little amused cynicism and say: All of you are playing to the gallery. You know the agitation is got up by some unprincipled agitators who have presented no solid argument, no honest reason, no real, tangible ground for exclusion. There have been appeals to racial prejudice, there have been untruthful statements, there have been shameful attacks upon British subjects and friendly allies, but there has not yet arisen a single exclusionist who has offered a sane or sensible argument for exclusion. If one should be offered I shall either answer it or pass it on to Canon Beanlands or Mr. Lindley Crease for reply. Rumor has it that they were denied a fair hearing at a meeting that the Asiatic League called on the cheap.

LADYSMITH.

VICTORIA MUSICAL SOCIETY.

To the Editor:—On behalf of the Victoria Musical Society we beg that you will grant us the means through your columns of dispelling a rumor which is being circulated around town to the effect that the artists advertised by the society, viz., Mme. Louise Homer, Paderewski, Kubelik and Witherspoon, will not come to Victoria.

Perhaps the best means of dispelling this rumor is to submit for your perusal the contract we have in our possession—signed, sealed and delivered—for the appearance of these artists in Victoria, and to request that you will vouch for its authenticity. The contract, as you will see, is subject to the usual clause providing for sickness or accident, and, with this proviso, the artists are legally bound to come to us. Since the contract was entered into the dates of concerts have been arranged as follows: Kubelik, January 7th; Witherspoon, January 27th; Paderewski, February 14th; and Mme. Homer, May 14th.

In its early days the society met with a considerable amount of opposition, but, in spite of the many disadvantages under which we have labored in the past, we have never yet failed to introduce the artists advertised; and we would beg of all those who have subscribed for season tickets to continue their confidence in the integrity of those who manage the affairs of the society.

There are still some season tickets not yet paid for. Will the sbscribers kindly forward cheques for their tickets to Mr. Stewart Williams, the honorary secretary, at an early date. Payment for same was due on the first instant.

It is scarcely necessary to add that should either of the artists be prevented from appearing here by sickness or accident the money subscribed for the concert concerned will be refunded by the society.

GEORGE PHILLIPS,
Director and Treasurer, Victoria Musical Society.

J. C. M. KEITH,
Vice-President.

DREYFUS PENSIONED.

Paris, Nov. 9.—An announcement of the pensioning of Major Alfred Dreyfus, was officially gazetted to-day as follows: "Dreyfus, Alfred, chief of squadron, major, 30 years 10 months and 24 days' service; pension from August 25th, 1907, 2,250 francs ($470) a year."

Major Dreyfus having retired before completing two years' service as major received only the pension of a captain.

PLAYING CARDS FROM AUSTRIA.

It is a curious instance of the way in which particular industries settle in particular spots without any particular reason that Austria should have become the centre of the manufacture of playing cards for almost the whole world.

Each large cafe in Vienna will consume about 600 packs a year, and in Austria there were sold during 1906 about two million packs, all of home manufacture. The export trade is still larger, especially to Asia and North Africa, in which Austrian cards appear to enjoy a virtual monopoly. They range from Turkey to India.

Last year 2,500,000 packs were sent out, and the government duty amounted to 660,000 crowns.

The throwing of rice at weddings is probably the oldest custom at present in common use.

NO DIVORCE LAW IN B. C.

ALL GRANTED HAVE BEEN ILLEGAL

Interesting Decision Handed Down by Judge Clement in Vancouver.

(Special to the Times).

Vancouver, Nov. 11.—Judge Clement handed down a decision to-day which if upheld means that each divorce granted in British Columbia in the last thirty-six years has been illegal.

In the case of Webb vs. Webb, in which the parties were married in Bellingham, Judge Clement dismissed the suit, not because there was no reason for granting the divorce on the evidence submitted, but because the court took the ground that there was no law in British Columbia providing for divorce.

If the courts of appeal uphold his view of the law it is altogether probable that special legislation will be passed by the governments at Victoria and Ottawa making divorces legal.

VESSEL IN DISTRESS.

The Cottage City Has Lost Its Propeller Near Bella Bella.

Word was brought to Vancouver this morning by the C. P. R. steamship Princess May that the Pacific Coast steamship Company's Alaskan steamship Cottage City is at Bella Bella minus her propeller. It is understood that tugs will be sent to her assistance. The May is due in port to-night.

The Cottage City was due in Seattle on Saturday, but will probably be several days late. A Canadian tug will be sent to bring her down.

The tug Lorne is reported to be taking the injured steamer Tampico to Seattle from Blinkinsop Bay. The Tampico is well down by the head, but is keeping the water out with her pumps.

—At the time of going to press this afternoon the condition of Miss Lottie Dodd, who suffered at the hands of her assailant, S. Tota last night, had somewhat improved. One finger was shot off by the discharge of the revolver and several cuts were inflicted by the razor.

—David Moore, who recently came to the city from San Francisco, died suddenly at his residence in Victoria West last night from heart disease. The deceased upon coming to the city from San Francisco, purchased a home on Powderly avenue, Victoria West. He was 74 years of age and was a retired gentleman. He was born in Oldham, Lancashire, England. Services were held at the parlors of the B. C. Funeral Furnishing Company this afternoon by Rev. C. E. Cooper, and the remains will be forwarded to-night on the City of Puebla to the Bay City for interment.

SEVEN DASHED TO DEATH.

Cages' Collision in French Mine Results in Terrible Accident.

St. Etienne, France, Nov. 11.—An ascending cage in a mine at Rambaud near here was struck to-day by a descending car and seven occupants of the latter were thrown out. They fell to the bottom of the shaft and were killed.

CANADIAN APPLES.

Fetch Much Better Price in England Than United States Fruit.

Ottawa, Nov. 11.—Trade Commissioner McKinnon at Bristol, England, says Canadian apples are bringing very much better prices in England this season than those from the United States.

SNOW IN TEXAS.

Dallas, Texas, Nov. 11.—Texas is experiencing the coldest weather of the year. There was a heavy fall in the temperature last night and snow fell at intervals this morning. In central Texas sleet is falling mixed with a little snow.

SHOOTING FATALITY.

Windsor, Ont., Nov. 11.—Willie Sprackling, a well known Windsor man, died in the hospital yesterday morning from injuries received from a gun in the hands of a companion. Both men went shooting on Saturday. Just as his companion pulled the trigger Sprackling happened to raise his head and received the full charge which tore away one ear and left a gaping wound in the left base skull.

Chosen every time where style, fit and the very best quality are desired. Sold everywhere.

CITY NEWS IN BRIEF

—Come and see the elegant Paris patterns at the Elite Millinery.

Go with the crowd and see St. George's Ball.

—Fine Wool Tweed Coatings and Suitings, 54 inches wide in stylish and dressy designs. Special price $1.25 a yard. Robinson's cash store, 86 Yates Street.

—The British steamship Fitzpatrick, wheat laden and bound from Portland to St. Vincent, passed up to-day to load bunker coal at Nanaimo.

—Mrs. Eulalie Blyth, of this city, has been appointed stenographer for the inquiry to be made by the Deputy Minister of Labor, W. L. Mackenzie King, into the immigration question.

—The Tourist Association is sending out literature about Victoria to all C. P. R. agents in the Northwest. The literature consists of the booklet "Impressions of Victoria."

—To-morrow evening the Young People's Society of St. Andrew's Presbyterian church will hold their monthly literary meeting. Rev. W. Leslie Clay will deliver a lecture on "Hon Joseph Howe."

—Oddfellows' hall, Douglas street, dramatic characterization of David and Jonathan, by Newton Beers, on Thursday, 14th November, commencing 7:45. Admission 50 cents. Everybody welcome.

—This evening the St. Andrew's Society will hold its annual meeting in the Sir William Wallace hall. The annual election of officers will take place, and the report of the committee in charge of the arrangements for St. Andrew's Day dinner will be received. A good attendance is requested.

—In spite of the fact that the bars were closed yesterday six persons were this morning convicted in the police court of being drunk and disorderly. Two of these were Sikhs. One of the Hindus did not appear and his bail of $10 was estreated. The other admitted his offence and was let off with the usual Sunday fine of $5 and $1 for the patrol.

Come to the St. George's Mask Ball to-morrow night, Tuesday.

—On Thursday evening at the I.O.O. F. hall, Douglas street, an entertainment will be given under the auspices of Dominion Lodge, No. 4, I.O.O.F., by Bro. Beers, the well-known monologist. Newton Beers has selected for his entertainment the dramatic characterization of the play "David and Jonathan," and his work should furnish not only an interesting, but also an edifying evening's diversion.

—The funeral of the late Mrs. Baillie took place yesterday afternoon from Hanna's undertaking parlors. There was a very large attendance, the deceased belonging to one of the old families of the city and being very highly respected. The services were conducted by Rev. H. A. Carson, assisted by Rev. Dr. Reid. The following acted as pallbearers: D. Spragge, J. Guinshaw, A. Lewis and W. Scowcroft.

—A Victoria young man, Lewis Chamberlain, who is a student in the Organ School of the New England Conservatory of Music, Boston, the leading American institution for musical education, made a public appearance at a recital given by conservatory pupils in Jordan Hall on the afternoon of Nov. 2nd. His selection was Gigout's Rhapsodie on Christmas Themes, which proved to be admirably adapted to be produced on the Conservatory's great concert organ, built along the lines of a very celebrated Sienese organ and placed at the disposal of advanced students in public performing.

—Free lessons are now being given in the Driard hotel parlors by the Misses Lockwood, members of the Corticelli decorative art staff. Procure materials from leading dry goods and fancy goods stores. Ladies interested in this fine art cordially welcomed. Hours: 10 a. m. to 4 p. m. Evening classes Monday and Thursday, 7 to 9 o'clock. Note—Corticelli materials used exclusively.

THE NEXT ATTRACTION.

The Sunny Side of Broadway Will Be Given in Victoria Theatre on Thursday.

Nothing but praise is being bestowed on the latest New York success, "The Sunny Side of Broadway," an American musical comedy with many unique and original features.

The "Two Happy Boys," Murray and Mack, are the principal factors in the fun-making, and are ably assisted by an extraordinary strong singing company numbering forty people.

"The Sunny Side of Broadway" will be offered to local theatre goers for one performance only on the night of Thursday, Nov. 14th, at the Victoria theatre.

The reservation of seats should be made early. This applies to those desirous of getting the better locations.

DAYS OF RAPID TRANSIT.

Victorians Can Now Reach New York in Less Than Five Days.

These are surely the days of safe, rapid transit for passengers and mails. Under present schedules, passengers from Victoria are able to reach New York in less than five days via the Northern Pacific Railway Company's crack train, "The North Coast Limited," which leaves Seattle every day in the year at 9.30 p. m. The actual running time between Victoria and New York by the "North Coast Limited" and connecting lines is 4 days, 11½ hours and the total time is 4 days, 23½ hours, giving passengerhs seven hours' rest at Seattle, four hours at St. Paul and one hour at Chicago. This quick time, too, is a daily schedule from Seattle, and six days a week from here. By the "North Coast Limited" Chicago is reached in 3 days, 11½ hours actual travelling time, and Toronto in four days, four hours.

FIRE PROTECTION.

Inspector for the Underwriters is Making an Investigation.

To-morrow morning Robert Howe, C. E., who is chief municipal inspector for the Canadian Fire Underwriters' Association, will have an interview with the municipal authorities in company with an official of the Vancouver Island Underwriters' Association in connection with the recent increase of thirty per cent. on the property bounded by Humboldt, Bay and Quadra streets.

Mr. Howe has been sent here to report on the situation which was jointly referred to the Canadian Underwriters by the city and the Island Underwriters. He will look into the water supply question and everything connected with the case and will have a report made out and printed, a copy of which will be sent to the city council.

It will be remembered that the local underwriters raised the rates on the grounds that the fire protection was inadequate. The city council refused to acknowledge that such was the case, and the Canadian Underwriters' representative is consequently investigating.

PERSONAL.

Chas. T. Gibbons, of Cowichan Station, Edward Woodward and Ernest Moore left yesterday via the Princess Beatrice, North Coast Limited and Lusitania for Liverpool on a visit.

* * *

James Noel and Richard Sutcliff left yesterday via North Coast Limited and White Star liner Adriatic for Southampton.

* * *

Mrs. F. Landsberg and daughter have arrived home from Europe, after spending several months there.

Take your Lady to the Ball.

THE GIFT CLOCK

As years roll by no other gift will bring as many pleasant memories of the giver as a GRANDFATHER'S CLOCK.

An illustration would give but a slight idea of the beauty of this stately hall clock.

The case is made of highly polished Solid Mahogany, stands eight feet in height, and is 28 inches wide.

It is beautifully adorned by hand carving and has quaint latticed wood sides.

The clock has a very fine grade movement, striking the hours and half hours on a rich toned tubular gong.

The dial is of hand pierced brass and has the moon dial.

The Price is $250

PASSED AWAY AT JUBILEE HOSPITAL

H. Vaughan Brewster of Seattle Died Last Night After Two Weeks' Sickness.

The death occurred at the Jubilee hospital last night about 9.30 o'clock of H. Vaughan Brewster, of Seattle. About two weeks ago the late Mr. Brewstern came to Victoria for medical treatment. He was suffering from Bright's disease in an advanced stage, and while little hope was held out to his friends a determined effort was made to eradicate the disease and give him relief. Possessing a naturally strong constitution some hope was held out that he might respond to the treatment. This proved false however, and he passed away last evening.

The deceased was a native of Harvey, Albert county, N. B., where he was born in 1867. He spent his younger days in his native town, and later entered the railway service. For 17 years he was agent at Albert for the Salisbury & Harvey railway.

About two years ago he decided to come west, his brothers all residing on the Pacific. He accepted a position with the Great Northern Express Company in Seattle, where he lived up to the time of coming to Victoria for medical treatment two weeks ago. In spite of the fact that the disease had advanced so far, the late Mr. Brewster had continued to perform the duties of his office right up to the time of his coming here, not knowing that he was in such a percarious condition. Dr. Ernest Hall and Dr. Frank Hall did all that was possible, but without success.

The deceased leaves a wife and four children. His father, Gilbert Brewster, is also living, residing with his son, G. W. Brewster, at Ladners. Three brothers of the late Mr. Brewster are on the coast. They are H. C. Brewster, M. P. P., of this city; G. W. Brewster, of Ladners, and J. H. Brewster, of Seattle.

The body will be taken to Vancouver to-morrow evening, and the funeral will take place on Wednesday in the Terminal City.

GRATED ON ROCK.

Steamer Kazembe Ran on Siwash Rock in English Bay, Vancouver.

While seeking for an anchorage in English Bay on Saturday night the Bucknall steamship Kazembe ran on a boulder near Siwash Rock. Her bows were slightly damaged, and several plates were started, causing her to leak. To-day divers have been examining the hull with the object of ascertaining the exact nature of the injuries which the Kazembe has received.

The Kazembe passed up on Saturday afternoon for Vancouver, carrying a big cargo of wool, hides and general freight. She was unable to reach the Mainland port until after dark, and was endeavoring to drop her anchor in the bay when her nose grated on the boulder.

It is probable that the Kazembe, which has not sustained any serious injuries, will unload at Vancouver, and will then be brought to Victoria to be repaired.

—G. Leask, of the G. T. P. survey service, who is now in the city, wishes the statement corrected that he is chief engineer of the company. He says he is only one of the assistant engineers.

YESTERDAY WITH THE EVANGELISTS

The Various Services Which Crossley and Hunter Attended--This Week's Arrangements.

Yesterday was a record day in the Crossley & Hunter revival campaign in this city. Tremendous crowds greeted the popular evangelists, and many were turned away.

Mr. Hunter preached in the Emmanuel Baptist church in the morning on "Ask and it shall be given you." He said there is no such thing on record as unanswered prayers. God answered every true prayer. Sometimes his answer was negative, but He always answered. He complimented Victoria on her beautiful situation, scenery, climate and mansions, but was afraid many of her best and wealthiest citizens hadn't any mansions in heaven.

Rev. Mr. Crossley spoke on "Prayer" to a full house at the Congregational church in the morning, and sang most effectively "My Lord and I."

At the men's meeting at the New Grand theatre in the afternoon, as early as 3 o'clock the crowd began to pour in, and a song service was conducted from 3.15 to 3.45.

The male quartette of the Y. M. C. A. sang with splendid effect "Eternity." Prof. Claudio's orchestra rendered good service.

Rev. J. E. Hunter delivered a stirring address on "Strong Drink," which he described as "Distilled Damnation."

In scathing language he denounced "the liquor traffic as a damnable business, the men who sell it are damnable, the man who treats another is damnable, the people who vote for and support it are damnable, the government which licenses it is damnable, and the poor drunkard is damned."

Mr. Crossley then sang "Papa, Come This Way," in his usual taking manner, and opened the way for a masterly address on "Soul Purity."

Mr. Crossley promised to address the last men's theatre meeting next Sunday on "Mysteries," while Mr. Hunter will speak to women only in the Metropolitan church on "Model Woman."

The Metropolitan Methodist church was taxed to its utmost capacity in the evening. Long before the service commenced every seat was full. Many stood throughout the service and hundreds were turned away.

J. E. Hunter prayed in his characteristic manner for the men in Victoria who went shooting on Sundays and disregarded the laws of God and man. He prayed for the sick, for those who made good resolutions and the saloon keepers.

Mr. Crossley sang "Peace Be Still," then preached on "Conversion" an able sermon.

There will be services every night this week in the Metropolitan church.

Pretty Dresses, Good Dancers, Excellent Music and a Good Time at St. George's Ball, Tuesday.

PROFESSOR ON PUGILISM.

The unusual incident of a University professor giving an illustrative demonstration of the "knock-out" blow, says the Melbourne Age, was witnessed at the athletic school of Messrs. Dan Creedon and Geoff Moriarty.

By means of a skull, Professor Osborne showed how a blow on the point of the chin had the effect of shaking up the fluids with which the three arches below the temple are filled in such a way that the nerves were prevented from transmitting to the brain the message concerning the disaster. Practically the same thing happened, Professor Osborne said, in the case of a knock-out by a solar plexus hit. Boxing, said Professor Osborne, was one of the finest of sports, and less harm was likely to happen to the devotee of it than to the follower of almost any other sport.

The famous Maelstrom whirlpool is four geographical miles in diameter.

CLOSE MACTHES ON RUGBY FIELD

VICTORIA TEAM WON FROM JAMES BAYS

Good Games in the Association Football Series--Klondykers Win at Easketball.

Victoria Rugby fifteen won the game on Saturday against the J. B. A. A. players, but with so great difficulty that the losers may well feel proud of their achievement. The score of 11 to 8 shows that the game was no walk over, and the score does not tell it all. The fact of the matter is the Bays played the better combination almost throughout the game, and their tackling was excellent.

It was evident very soon after the kick-off that some good Rugby would be seen, although the making of the first try was perhaps the best bit of work the Victorias did. Sweeney got the ball out and sent it to Newcombe, who passed to Winch. Winch gave it to Meredith, who was tackled just too late to avoid the try. It was near the corner and was not converted. Soon after Thompson got away nicely, but when tackled let the ball go forward instead of passing. A nice bit of combination on the part of the Bays a little later was spoilt by Anderson fumbling the ball just at a critical moment. This sort of thing often happened, many of the players on the younger team being but poor catchers. Another bit of pretty combination just in front of the Victoria goal was lost by Thompson.

Perhaps the most skilful bit of individual play throughout the game was the work of Newcombe when he scored the second try. He dribbled the ball very cleverly to within about twenty yards of the goal line, and then, picking it up, placed it very neatly. Meredith failed to convert this, leaving the score at half time 6 to 0 in favor of Victoria.

After the Bays had lost another opportunity of making points, Nason got away with the ball, finding a weak spot in the enemy's line. This he converted with a very clean kick. The game after this was very even, but the Bays did not seem to be in luck. On one occasion a foul gave the Victorias a free kick right in front of their opponents' goal, but Meredith failed to raise it. Then some good combination work sent the ball all along the line, Newcombe finally getting it near the right hand touch line and placing it in poor position. Blackbourne, however, was competent for the occasion, and he very nicely raised the score two more points by converting the try.

The Bay lads seemed to be almost exasperated at their ill fortune, and they made desperate efforts to pull up in the short time remaining. Leo Sweeney got in very nicely once, but it scored only three points and several other good chances were missed. Sometimes within a yard or two of the goal line they failed to cross it, although Nason very cleverly caught a skyer right in front of goal, making his mark at the same time. He failed to do the trick with the result recorded.

The J. B. A. A. showed unexpected strength in the scrums, but the Victorias understood putting it out behind much better. The formers is the faster, and if they improve at the same rate that they have since the last game, they will have no trouble in reversing things the next time they meet the Victoria team.

The play on Saturday was noticeably clean. Referee Moresby kept them in hand without any difficulty and the best of good feeling prevailed throughout. For the winners Newcombe played very well and Meredith, of course, was much in evidence, but was hardly felt as much as he might have been. For the losers it is more difficult to particularize. Campbell played very well and so did Leo Sweeney, Sargison, Nason, Anderson and Thompson. There were no weak spots. The following was the line-up:

J. B. A. A.		Victoria.
Nason	Full Back	Cullen
Morrison	Three-quarters	Meredith
Thompson		White
Cox		Sweeney
Anderson		Martin
A. Sargison		Spalding
Nason	Half Backs	Newcombe
McCarter		Winch
Bendroit	Forwards	Belleau
L. Sweeney		Sparks
Spencer		Cartwright
Campbell		Blackbourne
Kennedy		Brown
McCarter		Winsby
Arbuckle		Dakers

ASSOCIATION FOOTBALL.

REGIMENT LOSES AGAIN.

The soccer match between the Fifth Regiment and Esquimalt resulted in a win for the team that is in training. The naval village played a very good game, not allowing the others to score once, although they put the ball between the posts three times themselves.

The first goal was made by Jasper, after the Esquimalt had been pressing hard for some time, and Jones, the Regiment goalkeeper, had stopped a number of good shots. The second was a penalty. Fairall knocked the ball down with his hands right in front of goal, and Prevost, who kicked it, managed to score. Give and take play followed, Lawson, the inside right, Berkeley, outside left, and Fairall, at right back, playing splendidly for the losers, but all to no effect. Esquimalt was still pressing when the whistle blew for half time, the score then standing 2 to 0.

In the second half the Fifth went off with a dash, and it seemed as if they would make up for their lost prestige, but it lasted for only about fifteen minutes, and the able defence of Esquimalt prevented a score. Give and take followed for a time, until Prevost got in a long shot from about 25 yards. It went high, Jones just touching it with his fingers, but being unable to stop it.

Soon after this last goal Berkeley was thrown on his back and hurt, so he changed places with Fairall, although that did not give him much of a rest, for the village was still the aggressive team.

Stewart played his first game for Esquimalt on Saturday and he showed up well. He is an Old Countryman, and is a decided acquisition to the village club.

The following men played:

Fifth Regiment.		Esquimalt.
Jones	Goal	Beaney
Kinloch	Full Backs	Lockley
Campbell		Prevost
Campbell	Half Backs	Sheriff
Johnson		Telford
P. Lawson		Doble
J. Lawson	Forwards	Martin
Baker		Young
Kroeger		Buchan
Petch		Stewart
Berkeley		Jasper

Referee—A. J. Brace.

VANCOUVER WINS.

The big international soccer match between the teams representing the Vancouver district league and the Paget Sound Association was played on Saturday at Brockton Point, and was won by the home aggregation by a score of three goals to nothing.

The match on the whole was fair and well contested. The Americans had a strong defence, and the men in this division played a remarkable game.

ANOTHER WIN FOR J. B. A. A.

The Association game between the Garrison and J. B. A. A. on Saturday at Work Point was an excellent one, and the Bay boys had all they could do to continue on their victorious course, winning by a score of 2 to 0. The play was very open throughout, and give and take was the order of the day. The winners had not their strongest team, Sedger being away playing Rugby for the same club.

The game was a very clean one, the soldiers showing up well at every point. The strong defence of the Bay men was, however, impenetrable, and Shanks at half and Tait at forward showed up very prominently. Although the Garrison failed to score, the game was one of the best of the series. The following was the line up of each side:

J. B. A. A.—Goal, Peden; full backs, Lawson and S. Lorimer; half backs, J. Lorimer, Hughes and Shanks; forwards, Cousin, J. Daker, Daker, Todd and Tait.

Garrison—Goal, McDonald; full backs, Warder and Doyle; half backs, Johns, Bayley and Jones; forwards, Roberson, Sullivan, Williamson, Thomas and Smith.

Referee—Rutherford.

SHEARWATER WINS.

The men of H. M. S. Shearwater won out Saturday afternoon at Beacon Hill by a score of 3 to 1. The game was a good one, but the ship had the best of the game almost throughout. The Shearwater played uphill the first half against a slight breeze, and this gave the home team such an advantage that they were able to press for some time. There was a good deal of ineffective shooting, but the navy defence was equal to the occasion. Thackeray, the Y. M. C. A. half back, played a very good game, while Wilson and Shank also did good work. For the ship, O'Connor at centre half and Costello and Clarkson at back did admirable work. Two of the goals were scored by Findlay.

The teams were as follows:

Y. M. C. A.—Goal, Harper; full backs, Wilson and Wormald; half backs, Shank, Hill and Thackeray; forwards, Ferris, Baylis, Wormald, Kirchen and Johnson.

Shearwater—Goal, Wyatt; full backs, Costello and Clarkson; half backs, Holmes, Connor and Williams; forwards, R. Collier, A. Collier, Findlay, Fortune and Partleton.

Referee—Percy Richardson.

SHEARWATER PROTESTS.

The Association Football League has been called together to-night to consider a protest from the Shearwater against the rulings of the referee, J. G. Brown, at the match against the J. B. A. A. a week ago. The protest covers a number of points, the chief being that the referee had no right to rule off the two players, Clarkson and Tait, for rough play, and that he did not allow a penalty which the Shearwater had earned. Egeria is expected to have a representative at the meeting, and the schedule will then be rearranged to allow them to play their games. The standing of the teams is as follows:

	W.	L.	D.	Pts.
James Bay A. A.	7	0	0	14
Esquimalt	5	2	1	11
H. M. S. Shearwater	4	1	0	8
Garrison	4	4	0	8
Y. M. C. A.	3	3	2	8
Fifth Regiment	3	4	1	7
H. M. S. Egeria	2	0	0	4
Victoria United	0	14	0	0

ATHLETICS.

WALKING AGAINST RECORD.

Syracuse, N. Y., Nov. 9.—Edward Pryson Weston, the pedestrian on his way from Portland, Me., to Chicago, arrived here 7.45 this evening. He was greeted by a crowd of several thousand, many of whom saw him when he passed through Syracuse on the same trip 40 years ago to-day. He was in good form when he reached Syracuse. He made the 50 miles from Utica in a little over 16 hours. The villagers on the route gave him a hearty reception. He will remain here to-morrow the guest of old time friends.

BASKETBALL.

DAWSON OPENS WELL.

The Klondike all-star basketball five made a good beginning on Saturday night by defeating the Fifth Regiment by a score of 14 to 10. The game was an extremely even one, the Dawson men excelling in combination and the Regiment in shooting. The game was fast and clean, but it could hardly be said to be the highest class ball. The Fifth Regiment was not in training, the shooting of the Fairalls, although good, being nothing like what has been seen a number of times in the past. Given a week or two of systematic practice and the decision would be quite the reverse to Saturday's result.

The first point was scored by the Regiment one minute from the first blow of the whistle from a free throw. Another free throw directly after failed to find the basket. Then Hancock got an opportunity and placed a neat one for the Northerners, after a pretty bit of combination work.

"He who hesitates is lost," is an old saying, and it was true on Saturday night, for Douglas had an opening for a long shot that either of the Fairalls would have taken in a moment. It was rather far, and, after baulking, the Klondiker took more than three steps with the result that Charlie Fairall put a point to the credit of the home bunch. Douglas, Reid and Hancock did the scoring for the visitors, but they were not at all sure. The Fairall brothers did all the placing for the Regiment, except one free shot which was nicely thrown by Tom Gawley. There was a good deal of long passing, but some of it was very wild.

The Klondike team has been practicing for two weeks or more, hardly long enough for a touring team. Six games next week will put them in good shape to meet the crack teams of the Sound cities. Everyone in Victoria wishes them a successful tour, especially as four of them are Victoria boys, and they have chosen this city as their training and starting point.

Bob Foster will go on tour with the Klondikers to take care of them. It was quite a treat to see the masterly way in which he took off their grey jerseys on Saturday night. He will certainly uphold the dignity of the capital cities of the Yukon and of British Columbia.

The teams were as follows:

Klondike.		Fifth Regiment.
B. White	Guards	W. Jones
A. R. Reid		Thrall
J. Finlaison	Centre	T. Gawley
J. Hancock	Forwards	W. Fairall
M. Douglas		C. Fairall

INTERMEDIATE GAME.

The intermediates played a very good game of basketball, considering that many of them had been engaged in the soccer or Rugby contests in the afternoon. The Bays won by a good margin, although, like the senior game, the tables were turned in the second half. At half-time the score stood 12 to 3, while at the close of the match the totals were 14 to 7. Campbell and Sellick scored for the Regiment; Clarke, Dakers and Scott doing the needful for the winners. The following men played:

Fifth Regiment.		James Bay A. A.
Campbell	Guards	W. Kennedy
F. Kroeger		L. Sweeney
L. Wilson	Centre	J. Dakers
E. Sellick	Forwards	J. Clarke
S. Creed		W. Cox

GOLF.

MONTHLY COMPETITION.

The monthly handicap medal competition was yesterday competed for by the United Service Golf Club. The contest proved of great interest. Miss Gillespie won the ladies' competition, in spite of the fact that she was handicapped 18, her gross score being 58. The following are the scores:

Ladies' Competition—9-Hole.

	Gross.	Hdcp.	Net.
Miss Gillespie	58	18	40
Mrs. Burton	41	8	43
Miss Irving	65	22	43
Miss P. Pooley	44	Scratch	44
Mrs. Galletley	66	22	44
Mrs. Irving	58	8	50
Miss Pooley	60	8	52

Men's Competition.

	Gross.	Hdcp.	Net.
A. W. Jones	100	10	90
Col. J. A. Grant	108	10	98
M. J. Mason	113	26	87
M. Cane	117	26	91
Admiral Fleet	130	20	110
D. L. Gillespie	100	10	90

A. J. Galletly, D. H. McDougal, F. G. Fraser, S. G. Bowley, W. F. C. Sullivan, H. G. Reid, also competed.

The starfish has no nose, but the whole of its underside is endowed with the sense of smell.

What is your Type?

¶ When it was proposed to unite England and America by steam, a famous lecturer of the Royal Society "proved" that steamers could never cross the Atlantic because they could not carry coal enough to produce steam for the whole voyage.

¶ When it was proposed to build a vessel of iron an equally learned person said "Iron sinks—only wood can float."

¶ When it was to proposed to make men's finer clothes and sell them at the trying-on stage there were many who scoffed at the idea. But the will found the way. Semi-ready Tailoring is an admitted achievement of the present century, and the industrial historian must accord it a place in the higher realms of modern Progress.

LOW RATE FOR SHIPPING GRAIN

Fleets Between Canadian Ports Are Thoroughly Equipped for the Trade.

Port Arthur, Ont., Nov. 9.—The shipment of the western grain crop from the head of the Great Lakes, to the eastern elevators has this year, developed a peculiar condition of affairs. The crop was late in being harvested, so that the natural expectation would be a greater rush in the closing weeks of navigation, causing a higher rate than usual.

A year ago vessel owners were getting two and one-half cents a bushel for transporting the grain, and this year they are taking it down the lakes for two cents. It also has been shown that whatever fears there might have been a few weeks ago that boats would not be available, are not being realized. All the boats needed are obtainable. This results not from a scarcity of grain shipments as compared with other years, but from the activity of the navigation companies in addition to their fleets to be ready to meet the demand which is growing all the time. The fleets between Canadian ports are constantly being added to by large and up-to-date vessels to meet the requirements of the trade. Owners recognize the fact that they must keep pace with the progress in the wheat growing fields.

The grain shipments this year have been much more steady than in past years. Many vessels have been engaged all through the season, and not so many in the ore and coal carrying business as formerly. This is a result of the conditions which developed from the cold winter last year.

The grain did not come out as fast during the winter months as usual, and when summer opened there was a large amount ready for lake shipments.

ALASKAN WIRELESS STATIONS.

New System is Ready for Operations in the North.

Washington, Nov. 9.—The new wireless telegraph stations at Fairbanks and Circle City, Alaska, are ready for operation, according to advices just received by Brig. Gen. Allen, chief signal officer of the army. The stations are 140 miles apart and are designed to have a radius of about 250 miles. Stations are planned at various points from Nome to Cape Flattery and before a year has elapsed the signal corps expect to have in operation wireless connections from Bering straits to Puget sound. This is intended to supplement the Valdez-Sitka cable and the land telegraph lines, which, in the severe season, are difficult to keep in working order.

There are wireless stations in operation at Nome and St. Michael, a distance of 107 miles across Norton sound. The station at Nome will be enlarged and a station at Fort Gibbons and another station will be constructed at Valdez by the navy department, and these will be operated with naval wireless stations at Sitka and Cape Flattery. It is likely that stations will be constructed at Eagle City and Gulkana in order to replace land lines between those two points which traverse the roughest country of Alaska.

The wireless system between Nome and St. Michael has been operated without a break during the past year, and has been used for commercial business. These stations have demonstrated the fact that the wireless system for Alaska is far more feasible for the transaction of commercial business than are the land lines.

THROAT LIKE RAW BEEF.

"Last spring I caught a severe cold," writes George V. Smart, of Gibson, P.O. "Every cough rasped my throat, which became perfectly raw. When almost in desperation I was advised to try Nerviline. I rubbed it on and used it as a gargle. Immediate relief followed. For breaking up colds it's the great remedy of to-day." Used more largely now than ever—and fifty years in use. Surely Nerviline must be good.

HAS A CORN ANY ROOTS?

Yes, and branches and stems as well. Can it be cured? Yes, by applying Putnam's Corn Extractor. It is painless, safe and invariably satisfactory. Try it.

EVIDENCE IN TRIAL OF STEVE ADAMS

Deputy Sheriff Tells About Discovery of Tyler's Body--Orchard Not to be Called

Spokane, Nov. 9.—Dr. D. E. Keyes, coroner of Shoshone county since 1903, was the only important witness called at the afternoon session of the trial of Steve Adams at Rathdrum, charged with the murder of Fred Tyler. He went as far as St. Joe with Deputy Williams at the time that Tyler's body was brought out of the Marble Creek country. He told of the fracture in the skull and of the broken jawbone, which, he said, had been done by some act of violence. Dr. Keyes would not say that the fracture of the jawbone was due to a bullet wound, but he did say that it resulted from just such a wound as a bullet would make.

Bruce Worstell, a Wallace undertaker, who buried the Tyler remains, told of how it was done and where, and that after Adams had confessed and the preliminary examination had been called he had, with Dr. Keyes, taken up the remains.

Judge Wood adjourned the court at 2.30 this afternoon out of consideration for the health of Clarence Darrow, attorney for the defence. Most of the counsel on both sides and many of the witnesses went to Spokane for Sunday. Attorney Knight, for the prosecution, said:

"We have no intention of bringing Harry Orchard to testify in this trial, as he would not make a material witness. You can say that Orchard will not be brought here."

At the morning session A. M. Wing and A. C. Libby were called to the stand, and identified the written testimony of Archie Richards, taken at the last trial at Wallace. C. H. Williams, a deputy sheriff, then took the stand.

Williams said he had taken a trip into the Marble Creek country for the purpose of looking up a skeleton reported to have been found there. He met Mr. Simpson on the trail that led to the place where the body was found. When he arrived at the place described he found the skeleton. The body was badly decomposed, and was mostly dry bones. One arm had been dislocated. There was a little skin on the under jaw showing a beard. The hair on the back of the head was in a matted condition.

The body was lying across some logs. Williams said he examined the body closely. It was dressed in yellow underware and a pair of overalls. A gunny sack was lying near the body, and contained a number of articles, which were identified by the witness in court. He believed the hair was clotted with blood. There was a hole in the skull, about the size of a 30-30 bullet. The skull was exhibited and identified.

REJECTED SUITOR'S CRIME.

Shoots and Kills Woman He Loved Before Her Children.

New York, Nov. 9.—After pursuing her with his unwelcome attentions for ten years, Joseph Schmilowitz, of Cleveland, O., to-day shot and killed Mrs. Dora Stebet, in the presence of her two children, in her apartments in Myrtle avenue, Brooklyn. According to the story told by Mrs. Stebet's boy, Schmolowitz had been writing letters to his victim for ten years, and had been so insistent in his annoyances that Mrs. Stebet, her husband and her children had been compelled to flee from Philadelphia to Boston, and thence to Brooklyn, in the hope of eluding him.

Ten years ago in Cleveland, before Mrs. Stebet was married, she is said to have accepted the attention of Schmilowitz as a suitor. Mrs. Stebet and her children were at breakfast when Schmilowitz knocked at the door of their apartments. As Mrs. Stebet unsuspectingly opened the door of their apartment he greeted her with the qestion: "Why have you never answered those letters?" and as he spoke he drew a revolver and fired at her, but missed. Mrs. Stebet fled from the door, with the man in pursuit, firing. One bullet struck her between the shoulders and penetrated the heart, causing instant death.

FATAL KEG OF BEER.

Man Attemtping to Recover Liquor is Shot Through Body.

Buffalo, Nov. 9.—Peter Coronfle, driver of a brewery wagon, was shot through the body this afternoon when he attempted to regain possession of a small keg of beer, stolen from his wagon. The police are looking for three Polish youths, Paul Teola, John Zacks and Stanislaus Banazak. It is alleged that they raided the beer wagon, and that Teola fired on Coronfle. There is no chance for his recovery.

Many Doctors Failed

DR. HAMILTON AGAIN FIGURES IN A CASE THAT PUZZLED OTHER PHYSICIANS.

Halifax, N. S., Nov. 11.—When the statement of Mrs. Stanley, of 148 Argyle street, was first given it caused no small comment, and again establishes that as a physician who understands his profession none excel Dr. Hamilton.

"For years," says Mrs. Stanley, "I have suffered greatly from a peculiar dragging weakness that resulted from pleurisy and asthma. Doctors prescribed but failed to advise anything of real benefit. A friend urged me to try Dr. Hamilton's Pills of Mandrake and Butternut and I bought five boxes. They gave me renewed strength and energy, toned my stomach, enriched my blood, and supplied just what my system needed. No medicine could have benefited more than Dr. Hamilton's Pills, and I believe every woman would be helped enormously by using these pills regularly. They did me more lasting good than all the prescriptions I took in five years."

No man or woman in poor health ever used Dr. Hamilton's Pills without benefit; the depressed, ailing and weak they uplift and strengthen as a trial always proves.

WORLD'S MOST FAMOUS MYSTERY

Strange Story of the Haunting of Glamis--A Weird Narrative.

The most famous mystery in the world—such is the description that has been given to the strange story of the hautning of Glamis Castle. Most haunted mansions deliver up, sooner or later, all their secrets, but Glamis has never done so, and though surmise and rumor have done much in the way of hinting at the truth of the story, the mystery of Glamis is a mystery still. An account of all that is known of the traditional haunting is given in the September number of Pearson's Magazine, and of the many local stories that are told in connection with Glamis. We quote the following:

"In the reign of James II., Alexander, Earl of Crawford, reigned supreme at Glamis. He was cominonly known as 'Earl Beardie,' or the 'Tiger Earl,' and tales of his wild debauchery and wickedness were related with a shudder by the good folks of the village. His favorite vice was that of gambling, and when he could not find anyone willing to play cards with him, he would call some of his menials and compel them to join in his orgies.

"One dark November night, Earl Beardie, regardless of the fact that it was the Lord's Day, and therefore a day to be kept holy, called for a pack of cards, but could get none of the household to play with him.

"In desperation the latter sent for his chaplain, but that holy man not only refused, point blank, to meddle with 'the devil's bricks' on the Sabbath, but said that heavy curses would alight on the head of any member of the household who was impious enough to do so. This was quite enough to madden Earl Beardie, who, swearing dreadfully, rose up, and, seizing a pack of cards, went up to his bedchamber, vowing that he would play 'with the devil himself' sooner than be thwarted in his own castle.

"As he sat brooding in his room, a knock came at the door, and a voice from outside asked the earl if he still wanted a partner.

"'Yes,' he roared; 'enter, in the foul fiend's name, whoever you are.'

"A tall, dark stranger, wrapped in a cloak, glided in, and after saluting the earl seated himself in a vacant chair at the opposite side of the table, and began to cut the cards. Whatever qualms of conscience the earl may have had vanished when he saw that the stranger was likely to prove an opponent worthy playing with, and soon the game began in earnest. The stranger removed his bonnet and cloak, and presently proposed to raise the stakes. This the earl agreed to, saying that if he should be the loser he would give his opponent his bond for any amount.

"Then the game waxed fast and furious. Loud oaths were heard, and the terrified servants crept softly to the door, wondering what bold man was this who dared to beard the earl to his face. As they listened the tumult within increased; fiercer and fiercer grew the dispute, and louder and louder the two voices.

"At last the butler, an old family retainer, who had served two generations of the family, ventured to peep through the keyhole, but when he did so he gave a loud yell of agony, and rolled back on the floor. The door was burst violently open, and the earl appeared on the threshold, bidding the awe-stricken servants kill anyone who passed out while he settled accounts with his guest.

"Then he went back into the room, but the strange guest had disappeared, and no trace of him could be found. Earl Beardie's bond had likewise disappeared, but for what amount the confused earl was unable to say. The old butler was picked up, and found to be bruised and half-conscious, with a yellow circle round the eye that had injudiciously sought the keyhole. Earl Beardie, seeing this, told the horrified servants that his adversary had suddently hung down his cards, crying out: 'Smite that eye!' and immediately a flame of light had darted to the keyhole.

"The wicked earl lived for five years longer, but every Sabbath night after his death the same strange scene was rehearsed—the oaths and cries resounding through the corridors as if the strange game was being played once more. For a time this continued, and then the room was bricked up, but behind the barrier, tradition says, Earl Beardie still plays his game of cards with the devil, and till the judgment day he is fated to play on and on, never resting, but playing and cursing and yelling as of yore.

One-tenth of the world's surface is still unexplored.

MUNICIPALITY OF THE DISTRICT OF OAK BAY.
Municipal Elections 1908

Those claiming to vote as License Holders or Householders must file Statutory Declaartion with the Clerk not later than 1st December, 1907, to entitle them to have their names placed on the Voters' List.

J. S. FLOYD,
Clerk.

WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. T. E. Gillis

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. T. E. Gillis, Windsor, N. S., describes her illness, and cures, in the following letter:

Dear Mrs. Pinkham:—

"When I commenced to take Lydia E. Pinkham's Vegetable Compound I was suffering with weakness and womb trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles."

Women who are troubled with painful or irregular periods, backache, bloating, (or flatulence), inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

ROWLAND BRITTAIN
Mechanical Engineer and Patent Attorney, Room 3, Fairfield Block, Granville Street.

NOTICE

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to replace the wooden block paving on Government street, between Courtney street and Johnson street, with wooden blocks, treated with creosote, and that said work shall be carried out in accordance with the provisions of the "Local Improvement General By-Law" and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of the said By-Law, upon the said works of local improvement, giving statement showing the amounts chargeable in each case against the various portions of real property to be benefited thereby, and their report having been adopted by the Council, NOTICE IS HEREBY GIVEN that the report herein referred to is open for inspection at the office of the City Assessor, City Hall, Douglas street.

WELLINGTON J. DOWLER,
C. M. C.
City Clerk's Office,
Victoria, B. C., Nov. 5th, 1907.

DESTRUCTION OF RODENTS.

As a preventive against the introduction of the scourge known as the "Bubonic Plague," which has obtained a foothold in a neighboring city, the extermination, as far as possible, of all rats in the city has been decided upon by the civic authorities, and, consequently, NOTICE IS HEREBY GIVEN that the sum of fifty cents per dozen will be paid by the Corporation of the City of Victoria for all rats delivered, dead or alive, at the office of the Sanitary Inspector, Fisguard street (at the rear of the Market Building) between the hours of 10 and 11 a. m. of any day (excepting Sunday) to the person so delivering same.

WELLINGTON J. DOWLER,
Secy. of the Local Board of Health.
City Hall, Victoria, B. C., Oct. 31st, 1907.

SOME ENGLISH STAGE RECORDS.

By appearing 600 times in "The Scarlet Pimpernel" Fred. Terry and Miss Julia Neilson have achieved a feat they may well be proud of, but they are still very far from rivalling the long distance records of some of their predecessors on the stage.

Mr. Penley personated "Charley's Aunt" 1,466 times in London, Mr. Hawtrey appeared more than 1,000 times in "The Private Secretary," and Mr. James convulsed the house 1,362 times in "Our Boys." Auguste van Biene's appearances in "A Broken Melody" now number several thousands, and "Dorothy" and "A Chinese Honeymoon" can furnish several records far exceeding 600 performances of the same role.

In older times Shiel Barry and John Howson played the part of the miser in "Les Cloches de Corneville" thousands of times, and Patty Oliver sang "Pretty See-usan" 1,775 times at the Royalty in the late '60s.—Westminster Review.

The Chinese are noted for the size of their brains. The average weight of their brain is greater than the average weight of the brain in any other people.

THE ROCK

By Ian Malcolm in the London Chronicle.

For years I was the victim of an unconfessed yet troubled feeling that, almost alone amongst our British possessions, I had never seen Gibraltar. And so it came to pass that I took ship from London in order that at least one sin of omission might be redeemed.

Even from afar Gibraltar lies like a great lion across the path of those who would travel from east to west by way of the Mediterranean. The rugged head stares doggedly over Spain; forepaws stretch into Linea, hindquarters slope down into the sea at Europa Point, There is no mistaking the meaning of Gibraltar, and he who runs may read that meaning whensoever it suits him best; it is the lesson of "noli me tangere" (Anglice: "You may look but you must not touch") from the cruiser lying at anchor in the bay and the immense guns which the keen eye can discern (they seem about the size of fox terriers) standing alert just below the sky-line of the Rock. Gibraltar is a business proposition in terms of blood and iron; a steadfast rock of offence and defence patent to all whom it may concern.

A Hive of Industry.

Its waterways belong to battleships of greater or less degree which fly the Union Jack, to moles and harbors for the accommodation of British fleets. Ashore, it is a hive of British industry and activity; dockyards and barracks, hospitals and parade grounds, guns and "galleries," occupy every position worth having. All else is but a "side-show" compared with the British fortress aspect of Gibraltar. Even the British tourist feels ashamed of himself as he promenades about the Rock; it is no place for him to idle in, even though he can claim it as his very own. Yet, through the shame of wandering whilst others worked, of sleeping whilst others watched, there glowed in me an intense pride of country when I stepped ashore at Gibraltar.

I defy anybody to "tour" in Gibraltar; the action is inappropriate; a mouse might as well try to gambol in the presence of a cat. At the most we can begin to realize the might of Britain when she is beyond the reach of party politics. We can see something of the dockyards, something of the fortifications, something of those historic galleries hewn in the solid rock from whose lofty caves peer out the great death-dealing guns over harbor and land and southern sea; something of the ravage of war and the price of victory,as we gaze down into a little quarry sewn with arum lilies and roses and geranium which bloom among the grave-stones. Here is the one human thing in Gibraltar; this last resting-place of the victims of shot and shell and "the malignant fever," a quiet haven for those who died at the post of duty in the spacious days of Nelson; it is called "The Trafalgar Cemetery."

The shadows lengthen, and I must cross to Algeciras before the sun sets. So must hundreds, perhaps thousands, of poor people return to their homes in Spanish territory; people for whom Gibraltar is a business proposition of another kind, in that it provides them with a legal livelihood throughout the year. I see them streaming across the neutral territory into Spain, not a few with figures artificially altered by the amount of contraband which they have contrived to secrete about their persons in the hope of smuggling it successfully across the border. Night falls; great clouds envelope the heights of the Rock, and I can only see its base and the sea boundary of "neutral territory" outlined by twinkling lamps that remind me of the famous "Queen's Necklace" of Bombay. I gaze out over the sea from my window in the Reina Christina hotel, and an irresistible feeling of affection for the great Rock looming out of the darkness takes possession of me; it breeds the same wonderful kind of confidence that the waking child feels when he knows that, by stretching out his hand through the bars of his bed, he will surely find his mother by his side.

Algeciras.

The concert of Europe invented Algeciras when it chose that lively spot for the conference which was to settle the Morocco difficulty in 1906. That is to say that it introduced the name of this desolate village by the sea to the acquaintance of hundreds of people who were previously unaware of the fact of its existence, with the result that it is now in a fair way of becoming a prosperous seaside resort for idlers who are tired of Biarritz and the Rivera, and a perfect sanatorium for invalids anxious to escape the terrors of a southern winter. Under any administration but that of a Spanish municipality its development in this direction would have been far advanced long ago; but the native of southern-most Spain has no inclination toward hastening the day of prosperity by any undue effort of his own.

He argues that if the gratuitous advertisement given to Algeciras by the coming of the conference does not secure its fashionable future nothing will; so he leaves the roads unpaved and the usual sanitary defects of seaside villages more than usually apparent, trusting to nature to supply the scenery and to British enterprise to supply the capital which is necessary to attract the tourist and the patient. It may be added that he has not trusted in vain to these two powers; for the former smiles perennially upon the surrounding country, and the latter has built a railroad from Bobadilla by a route of quite exceptional beauty, and has raised in Algeciras itself one of the best hotels in Europe. Were it not for these amenities Algeciras would indeed be past praying for; a tiny fishing village opposite Gibraltar, and a veritable "smugglers' rest" for those whose daily bread depends on the quantity of tobacco which they can bring into Spain from the "free port" over the water.

The journey to Ronda is one of surpassing beauty. I cannot recall any line of railway outside the tropics which offers to the traveller so continuous a feast of varied scenery. First of all we passed through forests of cork woods, their delicate green foliage contrasting vividly with the deep brown hue of the trunks stripped of the outer bark which forms the "cork" of commerce. Then through miles of orchard, bright with pink blossom and white, and through orange groves heavily laden with golden fruit. Ronda itself is 3,000 feet above the level of the sea.

Natural Beauties.

For those who are careless of their creature comforts when hot in the pursuit of the beautiful I can imagine few places more attractive than this marvelous old Roman settlement. The town is built upon a site which is almost unique in Spain, and is divided by a deep ravine and a "glacis" of fertile agricultural land from the snow-capped mountains which surround it. A fissure of tremendous depth, through which the river rushes at terrific speed, bisects the town and is spanned by three interesting bridges. The first and lowest of these is of Roman construction, and dates from before Christ; the second was built by the Moors some 1,200 years ago, and the highest is the work of Spaniards in the eighteenth century. To reach the oldest part of Ronda, the Moorish town, we traverse the Spanish bridge, and find ourselves in a net work of narrow lanes, ill-paved and worse lighted, but picturesque beyond all expression.

To be sure, this is "a thing of shreds and patches." There are no "features," no broad impressions to be graven on the memory, but a multitude of corners and nooks and glimpses of a mediaeval world that knows and cares nothing for the rushing exigencies of modern days. Bits of the ancient Roman wall remain; a fine Moorish tower to the principal church, whose tiled belfry gleams like a jewel in the sunshine; a beautiful house in a tumbledown street, with two perfect little quadrangles and a dwelling once occupied by the generalissimo of the forces of Barbary—now the lodging of an agricultural laborer, whose bedroom window looks out on to the mountains of the Sierra de Ronda. To enumerate the patches of perfection at Ronda becomes tedious if not impossible; the carved arches over many a doorway, the tattered fourteenth century missals in daily use at the church of Sta. Maria, the quaint old cottages perched here and there on the brink of gorges and ravines; these are but a few of the details that will satisfy the true-born tourist, and stimulate the imagination of the artist.

"A LOVER'S CRIME."

Youth's Amazing Confession of Murder.

At the inquest at Croft in England into the death of Annie Haines, aged 17, a domestic servant, who was found dead in a ditch, a verdict of murder was returned against a collier named Archibald Page, aged 20, her sweetheart.

When arrested Page said: "I'm sorry now I've done it. I strangled her with one hand, and she was dead in three minutes. She was with another young man one Sunday. I asked her who he was, and she refused to tell me."

Page then handed the policeman a letter which was as follows :

"A lover's crime. May heaven forgive me for what I've done, but we were both ready to die together, for our lives are not worth living, and our plan is to die together.

"Now I've killed my own sweetheart, I cannot kill myself, but I'll give the police some work to do, but before this letter is found I'll be a hundred miles away. I must conclude my farewell letter. The Handcuff King, good-bye lass."

He afterwards made a detailed confession in which he alleged jealousy as the cause of the crime. He stated that while he was killing the girl some men passed by them on cycles, but did not see them.

He described how after the murder he took train to Leicester, and spent the evening at a music hall. At midnight he returned to the scene of the murder, and searched the fields and ditch, and found that the body had gone. He wandered about the spot all night.

WEDDING OF THREE GENERATIONS.

Three generations—grandfather, father and son—are to be married on the same day, at the same church, at Atlanta, Georgia. The son, Harold Flint, will marry a woman named Keller, the step-sister of his father's first wife.

WORLD'S GREAT BRIDGES.

The $4,000,000 four-track bridge across the St. Lawrence river, about eight miles west of Quebec, which recently collapsed, is (says Engineering) in length of span and dimensions of unit members comparable with only the five greatest of spans of all types yet built in the thirty years since the advent of structural steel revolutionized engineering—obliterated all former limits of construction. Indeed, except the proposed North River bridge, New York, with a six track, 2,850 foot suspended channel span, the Quebec bridge great span excels all others that have ever been prominently advocated or commenced. It is 3,240 feet long over all, about 415 feet in extreme height above low water, and is notable for its 50,000,000-pound channel span, 1,800 feet long. The two 1,710 feet spans of

The Magnificent Forth Bridge,

so brilliantly created in the earliest days of steel construction, and so long of unapproached magnitude, lacks 90 feet of its length, and has less than half its capacity. That both great spans are cantilevers constitutes almost their only resemblance; the Forth bridge main truss members are all huge tubes, built up piecemeal "in situ," with elaborate special plant established at the site, where all connections were riveted, with consequent indeterminate stresses in some cases, notably at the feet of the main towers. The Quebec bridge members have rivetted retangular webbed members for compression, for tensile stresses. All primary joints are pin-connected, and all stresses are positive. All members were completely finished in the shops. The 1,600 six-track suspended span of the Williamsburg bridge, New York ranks next in combined length and capacity; but except the main cables, its superstructure involved no large members or difficult feats of erection. The 840-foot two-hinge span of the highway and electric-car bridge across the Niagara river and gorge, just below the falls, is the next longest span, and the

Longest Arch in the World.

Its members are very light, none of them exceeding 10 tons in weight, or 500 feet in length. The 820 foot span of the Lansdown bridge over the Rori channel of the Indus river at Sukkur, is also a riveted connection cantilever, with enormous members (230 feet long, weighing 240 tons) in the end panels which were built up piecemeal "in situ" somewhat like those of the Forth bridge. The 812 foot river-span of the double track Wabash bridge over the Monongahela river at Pittsburg, Pennsylvania, is the next longest existing span, excepting suspension bridges, and is the longest trussed span yet completed in America. The main span weighs about 7,000,000 pounds, contains pieces 130 feet long, weighing 101,000 pounds and 15 inch pins 7 feet long, and was erected by a force of 100 men in 90 days, the cost being only $800,000 for the great span and the remainder of both super-structure and substructure, with a total length of 1,504 feet. The most

Marked Resemblance

and fairest comparison exists, however, between the Quebec bridge and the still unfinished Blackwell's Island eight-track bridge across both channels of the East river, New York, which corresponds to it in many important features of construction, design, shop-work, and erection. It has five main spans, with a combined length of 3,724 feet, and a width of 90 feet, weighing about 86,000,000 pounds, and costing, with approaches and land damages, about $20,000,000. It includes a 984 foot and a 1,182 foot channel span connected by a 630 foot island span, with members 100 feet long, weighing 120 tons each.

STYLE TELLS

BUT

PRICES COUNT

The man who desires his money to bring him the best possible returns on his wearing apparel should rely considerably upon the judgment of his clothier. We sell the 20th Century Brand

SUITS AND OVERCOATS $15 to $30

because the materials and workmanship are excellent; because there is a style and individuality about the cut, fit and "hang" of these garments that is unequalled by any other ready-to-wear attire. Doubtless the reason why this brand is worn by the best dressed men in Victoria.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is *increased vitality*—vigour—

VITAL STRENGTH & ENERGY

to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic

THERAPION No. 3

than by any other known combination. So surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored,

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH,

and a new existence imparted in place of what had so lately seemed worn-out, "used up," and valueless. This wonderful restorative is purely vegetable and innocuous, is agreeable to the taste—suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

THERAPION is sold by the principal Chemists throughout the world. Price in England, 2/9 and 4/6. Purchasers should see that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery

INDIA REACHES PORT.

After a smart passage of eleven days from Yokohama R. M. S. Empress of India arrived in port yesterday morning and left shortly afterwards for Vancouver. The Empress brought 36 saloon, 47 second and 502 steerage passengers, the latter being nearly all Chinese. Sixty-seven Chinese were landed here. The liner carried 1,856 tons measurement of freight, consigned to Vancouver.

The trip was uneventful, fairly good weather being encountered throughout. The Empress did not run into the spell of bad weather reported by the Keemun.

The following is the list of saloon passengers:—Mr., Mrs. H. A. and Master Allcock, J. C. Balderston, E. Barber, Mr. and Mrs. J. M. Beattie, W. H. Crissman, Miss E. Ferguson, J. R. Gillingham, Mr. and Mrs. E. M. W. Goslett, John Hays, G. Hering, Miss Hind, Fritz Kayser, Mr. and Mrs. W. A. Lovatt, G. E. Mallinson, Miss McLeod, T. Mikimoto, H. D. Morrison, E. M. Rathbone, W. S. Reid, D. M. Ross, T. H. Sawyer, Misses Scarfe, A. Schmidt, A. Seidel, H. G. Simms, G. Thomas, Mrs. and Miss Wesson.

The Empress brought word that Adsetts, convicted of the revolting murder of Gertrude Dalton at Hongkong, is to be hanged to-day. It will be remembered that Adsetts, under the name of Jackson, attempted to get away from China on the Monteagle, but was accidentally discovered and arrested. The trial in Hongkong was followed with great interest throughout the east.

Chinese advices state that there is considerable unrest in Tungyang, China, as the brigands of that district are active. Several villages have been burnt, and the troops are being sent, under Commander Hsu, to the assistance of the government's forces. Fighting has taken place at Nanchiu.

The attacks on missions at Kanchowfu, recently briefly reported, have culminated in the burning of several chapels and the houses of priests at that place. The British missionaries have Kiukiang in safety. One Catholic priest was killed.

From Nanchang advices state that the government steamer Hsi-tsing collided with the steamer Tungjen in the Poyang lake recently, and Li Yu-feng, the provincial treasurer, and the president of the railway company of Kiangsi and his family, and over forty aboard, were drowned.

SEATTLE SERVICE SATISFIES.

The present schedule of the C. P. R. steamer "Princess Beatrice" on the Victoria-Seattle route, is the most satisfactory that the traveling public has had, according to E. E. Blackwood. This schedule is particularly convenient for Victorians, who want seven or eight hours in Seattle in which to transact business or to visit friends at the Puget Sound metropolis, and be back here early next morning, and also for travellers who are en route to points beyond Seattle, such as Portland, Oregon, San Francisco, Los Angeles, Spokane, Denver and all points in the east.

Passengers are now able to leave Victoria at 8.30 a. m. daily, except Monday, and reach Portland at 10.55 p. m. on the same day; San Francisco in 48 hours; Los Angeles in 60 hours; Spokane in 22½ hours, Kootenay points in 32 hours; Chicago in 96 hours and New York in five days. The "Beatrice" connects at Seattle with the fast Northern Pacific trains for Portland and Spokane. Returning from Seattle at 11.30 p. m., the "Beatrice" connects with all Northern Pacific trains which reach Seattle in the afternoon and evening from Portland and points east. Passengers can now leave Portland at 4.30 p. m, on the "Puget Sound Limited" train of the Northern Pacific and reach here at 6 a. m. on the "Beatrice."

The steamer "Chippewa" also provides a convenient schedule opposite to that of the "Beatrice," and connects at Seattle with other of the Northern Pacific Railway Company's many trains.

KEEMUN BRINGS MANY JAPS.

The Holt liner Keemun, Capt. Conradi, which arrived in port yesterday morning from Liverpool, brought 147 Japanese and 12 Chinese steerage passengers to Victoria. Among the Japanese were many women, some of them coming to join their husbands in the States, to which place most of the Asiatics are at present going.

Six Japanese stowaways, who were discovered shortly after the Blue Funnel steamship left Yokohama, were ordered deported by Dr. G. L. Milne, immigration officer. The Keemun reported that one of the Chinese passengers had died at sea and had been buried, the latter proceeding being a departure from the usual course, as the bodies of Chinese who die at sea are usually brought to port and sent back to China embalmed.

The Keemun has a large amount of freight, including 500 tons of machinery, pig iron, rice, curios and general merchandise for Victoria. She left for Tacoma shortly after 11 o'clock yesterday morning, and will return next week to unload here. Among the machinery consignments were the engines and boilers for the hydrographic survey boat Alexandra, which is being constructed by the B. C. Marine Railway Company for the government.

JAPAN'S MERCHANT SERVICE.

According to advices brought by R. M. S. Empress of India yesterday, there is a growing belief in Japan that several of the larger steamship lines will shortly decrease their fleets in consequence of the present excess of steamships when compared with the freight offerings. There is considerable talk about the merging of several of the larger lines into a combine to be known as the Japan Steamship Company. A report on the situation has been sent to Washington, U. S. A., by Consul-General Miller, of Yokohama.

The following appeared in a recent issue of the Japan Chronicle: "The working of even the more prominent steamship companies, such as the Osaka Shoren Kaisha, Nippon Yusen Kaisha and Toyo Kisen Kaisha, is found to be very unsatisfactory. It is known that the working of the Osaka Shoren Kaisha for the last two periods, and the Nippon Yusen Kaisha and the Toyo Kishen Kaisha for the last business period, has resulted in some loss, and it is feared that the result may be the same for the present period.

"Unlike business on land, the shipping business has to meet with peculiar and keener competition, and so it is less lucrative than business on land, as may be seen in Europe and America. Until recent years the Nippon Yusen Kaisha was able to make a good profit on account of the bounty granted by the government and also because of the comparatively limited supply of bottoms in the Far East. Lately the company has been placed in a very trying position through the strong competition resulting from the general increase in bottoms without a corresponding increase in freight and passengers. In view of the unsatisfactory result of its South American service and other circumstances, the Toyo Kisen Kaisha has proposed to incorporate with the Nippon Yusen Kaisha, and President Asano, of the company, is said to be conducting negotiations in person."

KAZEMBE PASSED UP.

The Bucknall steamship Kazembe passed up on Saturday afternoon from the Orient for Vancouver, carrying a large cargo of wool, hemp, hardwood and other freight. The Kazembe will make a trip to New Zealand for her owners, but will probably be withdrawn after completing it, as the arrangement between R. Alley & Co. and the Bucknall Company for the subsidized line to the antipodes has been cancelled. It is reported, however, that the Bucknall company may maintain an independent service in competition with the Alley line, for which the Indravelli and the Den of Ruthven have been chartered.

WILL REPAIR JETTY.

The naval coaling jetty at Esquimalt has fallen into a state necessitating repairs, and the authorities are calling for tenders to have the work done early. Drawings and specifications may be seen at the naval yard.

GOVERNOR'S ARRIVAL.

The Pacific Coast Steamship Company's steamship Governor arrived in port last evening from San Francisco, bringing 77 first-class and 62 second-class passengers. Nine saloon and thirteen second-class passengers landed here. The Governor had a large amount of general freight for this port and Vancouver.

The saloon passengers who disembarked here were: F. J. Inglehart, H. S. Bentm, W. Germin and wife, A. Turner, Mrs. A. Kirkwood, Ernest Welsley, G. T. Coles, Mrs. Marie Alexander.

LUCY'S SISTER.

The Cunard line has just advised E. E. Blackwood, Victoria agent, that the "Mauretania" on her trial trip over a 300-mile course, averaged 27.36 knots per hour, equivalent to 31½ statute miles, which is a remarkable speed for a merchant vessel.

The "Mauretania" sails on her maiden voyage from Liverpool next Saturday, Nov. 16, and will sail from New York on Nov. 30th, on her first eastward trip.

HEAVY ATLANTIC TRAVEL.

E. E. Blackwood, general Atlantic steamship agent, reports eastward Atlantic travel as being especially heavy now, particularly to England. Many passengers have already been booked for November and December sailings. A party of seven Victorians left on Saturday via the North Coast Limited, and the Cunarder "Lusitania" for Liverpool, and five booked on the White Star "Adriatic" for Southampton.

DORA SIEWARD RETURNS.

The sealing schooner Dora Sieward arrived in port yesterday with a catch of 477 skins. She reported a bad season, the weather having been uncongenial throughout. The schooners Otto and Thomas F. Bayard are yet to return to port. The former has over 300 skins and the latter about 400.

NOTICE TO MARINERS.

Samuel Cliffe, of Comox, reports to the agent of marine department here, that Kelp Bar Reef buoy light is extinguished. This light will be re-established at the first possible opportunity.

MARINE NOTES.

The Cunard line has advised E. E. Blackwood that the "Lusitania" on her last westward trip carried 1,920 passengers for Canadian and United States points, and that the steamship "Pannonia," which reached New York yesterday from Naples, landed 2,118 passengers. The "Lusitania," which sails from New York next Saturday, has been booked full with passengers.

* * *

Advices received in Seattle state that the Grace Steamship Cacique, which recently went ashore at Callao, can be saved when her cargo is removed. This disposes of the sensational reports to the effect that the vessel was a total loss. Salvage work is already under way.

* * *

R. P. Rithet arrived from New Westminster and Fraser River points this morning with a large consignment of salmon, which she discharged at the outer wharf.

* * *

The steam whaler St. Lawrence left to-day for Page's lagoon whaling station, near Nanaimo, from which she will commence hunting in the Gulf this week.

* * *

H. M. S. Egeria is due at Esquimalt on Wednesday after completing her survey work in the vicinity of Queen Charlotte Islands.

* * *

The sealing schooner Jessie was hauled out on the ways of the Victoria Machinery Depot this morning to be cleaned and painted.

* * *

The Canadian-Mexican liner Lonsdale has been delayed coming up the coast, and will arrive several days late.

* * *

The steamship Apimara, which is expected to come here shortly, left Fiji on the 25th ult. for Portland, Ore.

* * *

The Union S. S. Co.'s steamship Camosun sailed for northern British Columbia ports on Saturday night.

* * *

The Pacific Coast S. S. Co.'s steamship City of Puebla is scheduled to sail for San Francisco to-night.

* * *

The Queen City is due from Rivers Inlet and way ports on the east coast to-morrow morning.

* * *

The N. Y. K. steamship Iyo Maru is scheduled to sail from Victoria to-morrow for the Orient.

* * *

The City of Nanaimo leaves to-morrow morning for the usual ports of call on the east coast.

* * *

The Norwegian steamship Hornelen passed up this morning to load coal for San Francisco.

* * *

The tug Stetson come into port from Cowichan on Saturday.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Nov. 11.—5 a. m.—The barometer remains high over this province and fine weather continues. Frosts have occurred on the Lower Mainland, and moderate to fresh easterly winds are reported along the Coast. An important cold wave extends from the prairie provinces southeastward to the Mississippi valley. The temperature is 4 above zero in Manitoba and only two degrees above freezing at Memphis.

Forecasts.

For 36 hours ending 5 p. m. Tuesday.

Victoria and vicinity—Moderate northerly and easterly winds, fair and warm during the day.

Lower Mainland—Light to moderate winds, fair and warm during the day.

Reports.

Victoria—Barometer, 30.15; temperature, 46; minimum, 40; wind, 8 miles N.; weather, clear.

New Westminster—Barometer, 30.30; temperature, 34; minimum, 34; wind, calm; weather, clear.

Kamloops—Barometer, 30.40; temperature, 34; minimum, 34; wind, calm; rain, trace; weather, clear.

ROYAL TROUSSEAU.

Even Paris is Set Talking by Display of Femine Finery.

Paris, Nov. 9.—The trousseau of the Princess Bonaparte, whose marriage to Prince George of Greece will be celebrated next month, has been put on exhibition, and has made all Paris busy in discussing it.

Such a magnificent display of feminine finery had not been seen here since the Third Republic. There are sixty-five different costumes complete, a dozen hats, a profusion of costly furs and sables, linens and piles of dainty lingerie.

The lingerie alone cost $80,000, the beautiful skirts and other garments which the bride will wear on her wedding day attracting special attention.

The princess has been the subject of much criticism by Parisians because the entire trousseau was purchased at a single house, and that not French, but Austrian.

The total cost of the trousseau of Princess Marie Bonaparte, who is to marry Prince George of Greece, was more than $300,000. The young princess has entirely lost count of the number of gowns she has ordered. The value of the orders given to one firm alone was $100,000.

Several of the Princess's trousseau frocks are in the Empire style. One very striking evening dress is in a soft shade of electric blue, made in very fine voile de soie. The small Empire corsage consists mostly of very handsome Venetian point lace, ending in points on either side of the bust showing the high draped Empire sash in two tones of blue satin.

TRAVELLERS ASSOCIATION.

Herman Erb Elected Vice-President For Victoria by Acclamation—Directors Nominated.

Winnipeg, Nov. 11.—The nomination of officers for the Northwest Commercial Travellers' Association was held on Saturday. The election will take place at the annual meeting on Dec. 21st.

The following were the nominations: President, Geo. Wilson, by acclamation; vicepresident, A. S. Lock, by acclamation; treasurer, L. C. MacIntyre, by acclamation.

Winnipeg: Directors—D. J. Dyson, E. L. Thomas, John Brockert, A. C. Wayte, F. H. Nesbitt, Chas. Holden, H. W. Lethbridge, G. W. Barrett, J. E. Holland, J. A. McTaggart, F. W. Adams, William Stitt, A. McAllister, R. J. Henderson, C. C. Macdonald of whom eleven will be elected.

Vice president, for Calgary, G. Dagg, B. W. Libby and H. H. White.

Vice presidents for Edmonton, Geo. Stock and F. M. Morgan.

Vice president for Regina, P. Cooper, by acclamation.

Vice president for Vancouver, L. D. Birely, elected by acclamation; directors for Vancouver, C. M. James, W. J. Linton, C. P. Egan and C. E. Mellish, two to be elected.

Vice president for Victoria, Herman Erb, by acclamation; directors for Victoria, R. A. Creech and R. B. Beech.

Director for New Westminster, Fred J. Lynch, by acclamation.

Director for Kootenay, Harold Wright, by acclamation.

WILL LIVE IN B. C.

Winnipeg, Man., Nov. 9.—B. C. residents will read with interest the announcement of the approaching marriage of Miss Susie Morse, formerly of Winnipeg, now of Calgary, to Narcisse Ganvereau, formerly of Quebec. The event will take place from the residence of Mrs. (Colonel) McLeod, Calgary on December 11th, after which Mr. Ganvereau and his bride will take up their abode for several months in New Westminster, B. C., and later will enjoy ranch life in Chilliwack. The wedding is to be of a quiet nature.

STRIKING EULOGY ON BRITISH TROOPS

High Fighting Qualities of Empire Soldier--Germany Sorry for Boer War Criticism.

A remarkable eulogy of Great Britain during the Boer war is published in the German official military organ, the Militaer Wochenblatt.

Unqualified admission is made that the British government was misjudged, and unstinted praise of the British soldier is freely recorded. The article emanates from the German general staff, and is therefore official. It consists of a review of the British official history of the war compiled by General Sir Frederick Maurice.

The writer begins by saying that seldom indeed has public opinion been led more astray concerning the true significance of the events of a war than during the hostilities in South Africa.

Criticism Not Justified.

It is declared that practically the entire press of all civilized countries did everything it could to eulogize the achievements and organization of the Boers, especially after their first victories; while British leadership and the British troops were belittled and mistakes immoderately condemned without any foundation which could justify such sharp criticism.

The article continues: "This exhaustive presentation of all the circumstances admits of a clear picture being obtained for the first time of all the difficulties which the British military authorities had to contend with at the beginning of the war. If hitherto the absolute inadequacy of the British preparations for the war has appeared incomprehensible, we now learn as a matter of fact that in competent circles in Great Britain hopes were entertained to the last that there would be a peaceful development of affairs.

"Therefore, the widely prevailing opinion that Great Britain was preparing for the war long beforehand, and was only awaiting an opportunity to open hostilities, is erroneous."

Germany's Experience.

After referring to the effect of the climate on men fresh from home the review proceeds: "If the British soldier in the early engagements did not show himself at the height of his fighting capacity when such catastrophes as Nicholson's Nek and Stormberg could occur, we, who now have our own experience of colonial warfare behind us, judge this phenomenon, which at the time evoked such unfriendly comment, all the more mildly, as today we ourselves know what acclimatization means in such colonial enterprises.

"Sir Frederick Maurice's masterly description of the fighting during the operations for the relief of Ladysmith, and during the advance on Bloemfontein, shows what devotion the British soldier is capable of, and what high fighting qualities he possesses, qualities which were recently again manifested in a brilliant fashion during the relentless pursuit of Morenga."

During the Boer war the columns of the continental press in general teemed with scurrilous attacks on the King, the government, and the British soldier.

A GRAVE CHARGE.

Officers of Company Arrested for Receiving Deposits When They Knew Concern Insolvent.

Portland, Ore., Nov. 9.—J. Thorburn Ross, president; G. H. Hill, vice-president, and T. T. Berkhart, treasurer, of the Title Guarantee & Trust Co., which went into the hands of a receiver last Wednesday, were arrested to-day, and a warrant is out for John E. Atchison, secretary of the defunct institution. Atchison is now in New York.

The defendants who have been arrested were released this afternoon on furnishing $2,500 bail each. The charge against them is accepting deposits while knowing the bank was insolvent. Under the laws of Oregon, this is a felony punishable by the maximum fine of $1,000 or imprisonment in the penitentiary for two years, or by fine and imprisonment.

The arrest was made on the complaint of C. F. Ehman, who alleges that on October 28th, the day before the present day-to-day holiday period began, he deposited $250. Ehman alleges that the officials of the bank knew on that day, and had for some time previously known, that the bank was insolvent.

SHADOW OF BLACK HAND.

Members of Medicine Hat Attempt to Intimidate Wealthy Residents in Ontario.

Sault Ste. Marie, Ont., Nov. 9.—The entire community is excited over particulars of attempts of the Black Hand, which have become public.

Some weeks ago Capt. Letcher, a wealthy Englishman, residing here, received letters from Medicine Hat demanding money which was to be placed on the porch of his house on Wednesday night. The provincial secretary sent secret service men to investigate there, and learned that John McKay, a well-to-do lawyer, and John Dunsea, a merchant, also received letters demanding money which was to be placed on the porch on Wednesday night. Capt. Letcher's house was watched, and a dummy parcel was placed in the spot mentioned in the letter, but no person came, and the detectives departed. At daybreak Capt. Letcher found the parcel gone.

ALL PEOPLE AT ALL TIMES,

Whenever it happens to be served, more than enjoy Clark's Pork and Beans—plain or with Chile or Tomato Sauce.

MARRIAGES ILLEGAL.

Attorney Declares That Five Thousand Chicago Couples Are Not Properly Tied.

Chicago, Nov. 8.—Five thousand marriages of Chicago couples, which have been performed in Hammond, Ind., within the last five years, were declared to be illegal, in an opinion rendered yesterday at Hammond by Attorney Lowden O. Bomberger to Ernest I. Shortridge, clerk of the Circuit and Superior courts.

In his opinion, he holds that licenses issued by the Superior court of Lake county, located at Hammond, are issued without legal authority, and that the only court of Lake county which is empowered to issue licenses is the Circuit court at Crown Point.

If he is right five thousand couples who have sought the aid of the kindly laws of Indiana during the past five years, and had the knot tied at Hammond, have been living together without legal sanction. The possible complications of a legal character alone which would follow such a state of affairs are innumerable.

Transfers of property, inheritances and a variety of matters depending upon the marriage of contracting parties will be cast under a cloud, which will remain until the higher courts are able to decide the technical point which is raised in the opinion.

REVOLVER DUEL WITH THUGS.

Policeman Probably Fatally Wounded and One of Ruffians Killed.

Reno, Nev., Nov. 9.—In a pistol duel, Policeman Charles Brown was shot and probably fatally wounded by a trio of thugs at about 10 o'clock this morning. Before he was shot Brown killed one of his assailants, and Archie Burris, an employee of the Southern Pacific, was shot in the side.

The trouble started in a quarrel among the thugs, who are the same men who held up a local gambling house last evening. Officer Brown attempted to arrest one of them, who immediately pulled a gun. Before he could use the weapon Brown shot him. One of the other thugs then jumped upon Brown's back, throwing the officer down. In his dying movements the wounded robber shot the officer. One of the flying bullets struck Burris, who may die.

The other members of the trio of assailants were caught, and narrowly escaped lynching. The dead man and his companions are foreigners.

THE UTE REVOLT.

Troops Will Remain on Reservation of Dissatisfied Indians.

Omaha, Nov. 9.—A report received yesterday at the headquarters of the department of the Missouri from Major Sibley, commanding the troops at the Cheyenne agency, in South Dakota, states that preparations will be made for the troops who have been sent to the reservation to establish winter quarters. The army officials take this to mean that Major Sibley considers the recent trouble with the renegade Utes of sufficient importance to require the presence on the reservation of troops for some time to come.

He states that Red Cap, the Ute chief who led the recent revolt, has agreed with a number of other leaders to send his children to agency schools. The question of sending children eighty miles to the agency school, separating them from their parents, was the immediate cause of the present trouble.

ENGINEERS KILLED.

West Brookfield, Mass., Nov. 9.—The Boston and Albany express, from Albany for Boston, struck a freight train which was backing out of a siding near here to-day, causing a bad wreck and killing the engineer of the express. Several persons were cut and bruised, but none were seriously injured.

ASPHYXIATED.

Jamica, Nov. 9.—Mrs. Susan Melon and twelve-year-old Dudley C. Brown were asphyxiated by illuminating gas in the home of Mrs. Melon's sister here during last night. They were found dead in their beds to-day.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-Agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in materia particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

QUARTZ.—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 per acre.

The patent provides for the payment of a royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5, renewable yearly.

An applicant may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

THE FOLLY OF IT

The folly of not advertising because you did not succeed the first time you tried is equal to that of the man who said "It was no use" because he did not sharpen his axe with a single turn of the grindstone. Advertising is an undertaking that requires persistent effort if paying results are expected and the goal of success is not for the indifferent merchant.

The big fellows to-day are not the indifferent brand, look back at the history of the majority here and elsewhere.

PANTAGES THEATRE.

A Good Programme Promised for This Week on Johnson Street.

From all reports a real clever show has been booked for this week at the Johnson street theatre. The head-liners, Hayes and Aupsint, a pair of comedians that have been creating quite a furore on the Pacific Coast circuit, are said to be one of the biggest hits in vaudeville. The Fishers, in a scenic contortion act; Sadie Reynolds, the dainty singing soubrette; McGee and Collins, a great pair of sketch artists; Tommy La Rose, the song illustrator; and the pantagescope, in a new series of motion pictures, complete a strong bill and one that will no doubt please the patrons of the house.

—Tenders are being called for by the city for the painting and kalsomining of the city electric light station.

VICTORIA WILL BE NEXT RENDEZVOUS

Grand Camp of Arctic Brotherhood Concludes Its Seventh Annual Session at Tacoma.

Tacoma, Nov. 9.—After one of the busiest conventions it has held the delegates to the seventh annual session of the grand camp of the Arctic Brotherhood adjourned this afternoon.

The business accomplished to-day was the election of the officers to serve the coming year; the naming of Victoria for the next annual session of the grand camp; the appointment of standing committees, and the establishment of a list of visiting committees in cities of the Northwest. There was hard competition between San Francisco and Victoria for the honor of the next annual meeting of the grand camp.

In recognition of the fact that the session of 1909 is to be held in Seattle and many things will be coming up next season bearing upon the work to be accomplished at the exposition the year following, it was decided that the nearer the next grand camp was to Seattle the better, and Victoria was selected.

Thomas Bruce, of Seattle, recently of Dawson, had little or no opposition for grand Arctic chief, the official head of the brotherhood, the full list of officers elected being as follows:

Grand Arctic chief, Thomas Bruce, of Seattle.

Vice-grand Arctic chief, Richard Mansfield White, Seattle.

Grand Arctic recorder, Col. Godfrey Chelander, Skagway, now in Seattle.

Grand Arctic chaplain, Dr. Willis E. Everette, Dawson.

Grand Arctic keeper of nuggets, Carl M. Johansen, Eagle.

Grand Arctic trail guide, G. R. Short, Chena.

Grand Arctic trail blazer, Valdemar Georgeson, Sitka.

Grand Arctic camp cook, D. Smith Harris, Ketchikan.

Grand Arctic keeper inner toll gate, F. H. Mobley, Discovery, B. C.

Grand Arctic keeper outer toll gate, Dr. E. A. Burns, Seattle.

Grand Arctic trustees, Dr. I. N. Moore, Skagway; James Arden, Dawson; J. N. Wilcoxen, Skagway; J. Koleman, Cleary; J. C. Green, Rampart.

Following his appointment the new grand Arctic chief announced the following standing committees:

Auditing—W. R. Hanlan, Sitka; S. A. Kellar, Council; Harry Landahl, Dawson. Appeals, credentials and grievances—C. S. Hannum, San Francisco, recently of Nome; Thomas Alexander, Cleary; H. A. Weld, Dawson; C. Dempsey, Council; George Woodruff, Eagle. Constitution, by-laws and ritual—Dr. W. E. Everette, Tacoma; Gov. Alexander Henderson, Dawson; Weston Coyney, Dawson; Judge C. S. Hannum, J. L. Green, Rampart.

Grand Arctic Chief Bruce also appointed the following deputy grand Arctic chiefs to serve for the following year, their appointment taking effect to-day: Dr. W. E. Everette, Dawson camp, No. 4, deputy grand Arctic chief at large for Alaska and the Yukon territory; James Rogers, for the Tanana district; Judge C. S. Hannum, for the Seward peninsula district; Maj. J. F. A. Strong, for the district of Catalla; Hon. Thomas Quinn, for the district of Valde and Copper Centre; M. S. Whittier, of Skagway, for Southeastern Alaska; H. F. Thunun, of Rampart, for Rampart district; J. S. Cowan, of Dawson, for the Dawson district and the Yukon river country.

The following visiting committees were appointed by the Grand Arctic chief, the innovation newly inaugurated by Mr. Bruce: For Seattle—W. H. Bard, of Nome and Seattle; F. W. Clayton and A. F. Edwards, both of Dawson. For Tacoma—W. A. Sternberg, A. H. McKay, Rudolf Kalenborn, all of Tacoma, but recently of Alaska. Visiting committees will also be appointed at Portland, Victoria, Vancouver and San Francisco. It will be the business of these committees to look out for the welfare of visiting members of the brotherhood in the cities mentioned.

Thomas Bruce, the newly elected grand Arctic chief of the Arctic Brotherhood, at the close of the session, said:

"The convention has never been surpassed by any of our annual gatherings. The citizens of Tacoma, the Mayor of the city, president of the chamber of commerce, the ladies' reception committee and the various individuals and companies that have contributed so enthusiastically to our entertainment have taken our brotherhood off their feet in the wholehearted way they have handled us."

FLEEING FROM JUSTICE.

Perpetrators of Covington Tragedy in Seattle Believed to Be Bound for Chili.

Tacoma, Nov. 9.—That Frank B. Covington and Charles Burlison, believed to be the murderers of Mrs. Agnes M. Covington, in the Keswick house, Seattle, early in September, are located, is the firm belief of City Detective D. O. Smith, and boarding house in this city. Both these men furnish plenty of corroborative evidence, linking fact with fact.

The suspected men, they say, are now on board the American ship Henry Failing, of San Francisco, Capt. Anderson, which sailed from Tacoma with a cargo of lumber bound for Valparaiso, Chili, September 23rd.

WELL KNOWN RANCHER DEAD.

Wm. Harvey, of Calgary, Had Large Interests in Cattle Business.

Calgary, Nov. 9.—Wm. Harvey, a well known and highly respected rancher on the Rosebud, east of Carstairs, dropped dead at his home yesterday. Mr. Harvey was preparing to come to Calgary with a bunch of cattle and went into his house to get his overcoat. Not returning as expected, his son, on going to see the cause of delay, found his father dead on the floor. Mr. Harvey came to this country some years ago from South Dakota and went extensively into the cattle business.

STORM SWEPT ITALY.

Number of Vessels Wrecked in Mediterranean and Adriatic Seas.

Rome, Nov. 9.—Storms, accompanied by torrential rains, have again caused floods in several parts of Italy, and a number of vessels have been wrecked in the Mediterranean and Adriatic seas.

ATTEMPTED MURDER THEN TOOK HIS LIFE

(Continued from page 1).

terwards that Mr. Pemberton found that his coat was splashed with blood. Indeed, he did not notice that the woman was wounded. The confusion of the occurrence had broken so suddenly upon him, with the darkness to assist its mystery, that there was nothing but a sense of bewilderment in the tragedy. In the gloom farther up the street he saw a form, which seemed to reel and fall. Approaching, he found a man lying in the roadway, his throat welling blood from an awful gash, already speechless and in the clammy agonies of death.

Attracted by the pistol shots, other citizens had quickly gathered. Medical assistance was summoned and the ambulance was called. But the fallen man was past the surgeons' aid. He was seen to move his head once, in the dust of the roadway, but no words came from his already death sealed lips. It was a corpse that was lifted into the wagon from the roadway.

In the meantime the unfortunate girl had discovered her plight to R. Sangster, who was attracted from his residence nearby, and she was removed to the hospital, where everything possible was done for her comfort. It was found that she had received several slashes with some sharp instrument—Tota's razor—across the face. There was a cut on her throat also, but a fur boa, which she wore at the time of the attack, apparently broke the force of this stroke, and probably saved her life. At the hospital to-day it is reported that Miss Dodd is doing as well as can be expected, and that her recovery is looked for.

The remains of Tota are lying at Smith's undertaking parlors on Yates street, where an inquest will be held. All his effects, including the razor and revolver, which were subsequently picked up at the scene of the tragedy, were taken possession of by the police.

As far as can be gathered, the attack on Miss Dodd occurred in this way: Whilst crossing the vacant strip between Collinson street and Victoria Crescent, she found her way barred by Tota, who had hidden himself in the shadows of the plot. The terrified girl felt instinctively that evil was upon her. Instinctively she knew that an insane lover blocked her path. Closely following a demand that she become his wife, she endeavored to elude and escape Tota, who drew a revolver and threatened her life. The terrified girl caught his arm and in the struggle which ensued, the shots were diverted, although one of the girl's fingers suffered. The revolver fell from the madman's hand, and was lost in the darkness. He then drew the razor and continued the attack, whilst the girl shrieked for assistance and endeavored to avoid the blows. Having satisfied himself in his vengeful injuries upon the girl, Tota drew the razor across his own throat and quickly passed into eternity. The ground has not yet freed itself of the great splaches of red which mark the spot where the life blood of the suicide ebbed away.

The dead man was about 26 years of age. He was born of European parents in Pennsylvania, near Reading. Tobacco growing and manufacture is one of the industries of this part of the state, and through this it befell that young Tota was introduced to the cigar-making trade. He became very proficient in his trade, and being assured of employment for this reason, became a great traveller, having worked all over the continent. It is said that his habits were fairly good, though occasionally he was given to dissipation. Both of his parents are dead, but he has a brother, who is reputed to be wealthy, who is living somewhere in Pennsylvania.

Miss Dodd, who is 22 years of age, will likely recover.

Mrs. Dodd, the mother of the young lady whose life was attempted, knew nothing of the affair until after church last night, when some of the nurses from the hospital come to her home and told her of the occurrence.

She is naturally very much wrought up as a result of it. To a Times reporter she said that she had seen nothing of Tota since he left the city last February. He had roomed at her house and thus became acquainted with her daughter. The latter had accompanied him at times to entertainments. He had manifested a strong liking for Miss Dodd, but the latter had not reciprocated and had given him no encouragement in that direction. She had taken pains to show him that she did not desire his attention.

Mrs. Dodd went to church last night and it was after her return that the nurses from St. Joseph's came to her house and told her what had befallen her daughter.

The Harp Restrung

THE REVIVAL OF AN IRISH INDUSTRY

WHEN SOME OF BRITAIN'S FAIR SEX, headed by Lady Aberdeen, inaugurated a movement having for its object the revival of Rug Making by Irish Peasant Girls, a broken string of Ireland's harp was mended. Away up in the North of Ireland peasant girls, under the direction of textile artists of the highest standing, are weaving so much goodness into rugs that Donegal Rugs are now world famous.

Donegal Rugs resemble the heavier Oriental weaves in the splendid wearing qualities, but unlike Eastern rugs we can have them made to suite your own particular fancies, to your architect's designs—advantages worth much. These rugs are made entirely by hand. The materials used are the very finest obtainable, and the dyes absolutely fast. We have a number of rarely beautiful designs on show now and many samples, and should be pleased to show and explain to you thair many superior qualities.

SHOWN ON OUR SECOND FLOOR---COME IN

Quality Blankets Priced Low

SUPERIOR WOOL BLANKET
6-pound, at, per pair$5.75
7-pound, at, per pair..$6.75

"He's On."

FOR SETTING SAWS.

Invention by Vancouver Man Has Been Given a Canadian Patent.

Albert Champeau, of Vancouver, has recently invented an improved saw setting anvil and gauge for logger's use, on which a Canadian patent has just been granted. For setting their cross-cut saws loggers at present require to carry two tools, a hand anvil against the end of which the teeth are "set," and as a separate article a claw gauge to measure the "set" given, and the inconvenience of having to carry and handle two separate tools has suggested to the inventor the embodiment of them in one, with features of improvement to facilitate the application.

Mr. Champeau's device consists of a simple anvil block, each end of which is provided with the projections of the gauge, the double projections at the centre being adjustable by means of a screw and lock nut so that the amount of "set" may be varied, and are also reversible so that either anvil face may be used without the necessity of turning the tool round in the hand to apply the gauge.

The patent was received through the agency of Rowland Brittain, patent attorney, of Vancouver.

—The Court Victoria held a meeting last Wednesday evening, when five candidates were initiated. The social committee reported that a social dance would be held at the close of the regular meeting, November 20th.

DOUBLE TRAGEDY.

New York, Nov. 9.—Mrs. Stephen Dobmeier, a widow, 48 years old, was hacked to death with a lathing hatchet by Shreive McAger, over 40 years old, at her home 273 Carleton street this afternoon. The man afterwards slashed his throat with a razor and died within a few minutes. The motive for the double tragedy could not be ascertained at a late hour this afternoon. Mrs. Dobmeier was alive when a policeman reached the house, but died at the hospital.

—To-morrow morning there will be a meeting of the council of the board of trade to consider the business before the board, preparatory to the regular monthly meeting on Thursday.

Tooth Brushes
With Wearing Qualities

We have a brush of English manufacture which we sell at 25 cents each.

The bristles are of the best quality and are fastened in with silvered wire.

Other kinds at 15c., 25c. and 50c.
